

Area to have recessed 9mm fill panel to accept a label for each console.

The detail internal shape will be determined by the cabinetmakers machinery.

Heavy Duty (removable) Desktop must safely sustain full body weight on the outer most edge. The desktop will be supplied loose and will be secured on site by the installation engineers with cleats and screws.

Lower recessed in-fill panel of 9mm board to provide lateral strengthening of the console - additional in-fill panels may be retrofitted.

Depending upon the required position and orientation of the 20" monitor and the VCR installed underneath, it may be necessary provide a cut-out in the shelf and rear surface of the desktop and/or support in the desktop for this lower VCR.
