## Andrew Designs with Installers in Mind

When it comes to fitting connectors to cable, installers who take pride in their work reach for Andrew EASIA<sup>®</sup> PLUS Cable Preparation tools. They know that using EASIA<sup>®</sup> tools means better connector attachment and improved system performance time after time. And they know they'll finish the job sooner with fewer tools and fewer hassles. The EASIA<sup>®</sup> PLUS Cable Preparation tool simply fits on a standard drill and in about 10 seconds all the necessary preparation steps are done.

### *EASIA<sup>®</sup> PLUS Cable Preparation Tools:*

- Aluminum construction—lightweight for easy handling
- Easy identification, corrosion resistant
- Power drill compatible\*—fits standard 3/8" and 1/2" drill chucks
- Performs all required cable prep in less than 10 seconds
- More accurate, more reliable connector attachment
- Long blade life—up to 600 cable preparations per blade set
- Replacement blade kits available—long tool life
- T-handle available for manual use

## Cuts Installation Time, Improves System Performance

Now cable installers and system designers can dramatically reduce cable preparation time and expense while improving overall system performance with the EASIA<sup>®</sup> PLUS Automated Cable Preparation Tools from Andrew Corporation.

When fitted to any standard power drill, the rust-resistant EASIA<sup>®</sup> PLUS tool removes the cable jacket, outer conductor, and foam, then cuts back and chamfers the inner conductor to the correct dimensions for connector attachment—all in 10 seconds or less. The EASIA<sup>®</sup> PLUS automated method of cable preparation produces cable connections that are more consistent, more reliable, more weatherproof, and more repeatable. EASIA<sup>®</sup> PLUS Cable Preparation Tools mean consistent installation quality that's faster and easier than conventional methods.
