

D-Link Quick Installation Guide

This product can be set up using any current web browser, i.e., Internet Explorer 5x, Netscape Navigator 4x.

DWL-900AP+
D-Link AirPlus™
Wireless Access Point

Before You Begin

It's best to use a computer (with an Ethernet adapter) that is connected to a router for configuring the DWL-900AP+. The default IP address for the DWL-900AP+ is **192.168.0.50** with a Subnet Mask of **255.255.255.0**. You will need to assign your computer a Static IP address within the same range as the DWL-900AP+'s IP address for the purpose of configuration of the DWL-900AP+. **See the Manual on the CD-ROM if you need assistance in assigning a Static IP address for your network adapter.**

Check Your Package Contents

These are the items included with your DWL-900AP+ purchase:

	• DWL-900AP+ Wireless Access Point
	• CD-ROM (containing Manual and Warranty)
	• Ethernet (CAT5 UTP/Straight Through) Cable
	• 5V DC, 2A Power Adapter

 Using a power supply with a different voltage rating will damage and void the warranty for this product.

If any of the above items are missing, please contact your reseller.

1

Connecting The DWL-900AP+ Wireless Access Point To Your Network

- A.** First, connect the power adapter to the **receptor** at the back panel of the DWL-900AP+ and then plug the other end of the power adapter to a wall outlet or power strip. The Power LED will turn **ON** to indicate proper operation.
- B.** Using a Straight-Through Ethernet cable, insert one end of the cable to the **Ethernet port** on the back panel of the DWL-900AP+ and the other end of the cable to an **Ethernet Broadband Router** (i.e., D-Link DI-604) or **Switch** (i.e., D-Link DSS-5+). Note: The router or switch must be connected to the computer to be used to configure the DWL-900AP+. The Link LED light will illuminate to indicate a proper Ethernet connection.
- C.** Computers with 802.11b wireless adapters can connect to the DWL-900AP+. The DWL-650+ AirPlus Wireless Cardbus Adapter and the DWL-520+ AirPlus Wireless PCI Adapter will connect, out of the box, with the DWL-900AP+, using their default wireless settings.

 When connecting the DWL-900AP+ Wireless Access Point to an Ethernet Adapter in a computer, use a Cross-Over Ethernet cable.

When you have completed the steps in this *Quick Installation Guide*, your connected network should look similar to this:

2 Using The Setup Wizard

Open your Web browser and type **"http://192.168.0.50"** into the URL address box. Then press the **Enter** or **Return** key.

The logon pop-up screen will appear.

Type **"admin"** for the username and leave the password field blank.

Click **OK**

2 Using The Setup Wizard (continued)

Once you have logged in, the **Home** screen will appear.

Click **Run Wizard**

You will see the following screens.

Click **Next**

Step 1 - Set up your new password. You have the option to establish a password.

Click **Next**
