

introducing the hp color LaserJet 4550 printer series:

an easy-to-use
and affordable
colour printer
for professional
in-house printing

The new generation of e-enabled printers, the HP Color LaserJet 4550 series, are internet-ready to make colour printing easier than ever.

Enabling your clients to communicate more efficiently, the HP Color LaserJet 4550 provides the latest in network printing technology backed by unparalleled quality, reliability and compatibility.

Time-saving and cost-effective, it comes with exciting new features such as HP's fast infrared connectivity for wireless printing and auto-duplexing which allows users to produce professional documents in-house, on demand.
