

ULTIMA™ class

THE BEST CARD PRINTER SUPPLIES...GUARANTEED.

Certified Supplies

The World's Best-selling Card Printers

You chose the Credentia™ Ultima™ Class card printer for some very good reasons. Now make sure you continue to get all the image quality, high-volume productivity, reliability, security and cost effectiveness it can deliver by using the right supplies.

Credentia's Ultima Class ImageCard IV card printer offers unmatched speed, plus sophisticated security features, for full-color duplex printing of high-security, long-life cards.

Credentia supplies are specifically designed to maximize the capabilities of your Credentia card printer. Our system-matched supplies meet the same high standards of guaranteed quality as your printer for performance and reliability you can count on. They are totally compatible and easy to use to keep your operation running seamlessly. You can also count on fast service and the best value.

Performance-matched Print Ribbons

Your Ultima Class ImageCard® IV card printer can produce clear, true-to-life photos – as well as bar codes, logos, text, signatures and more – with our one-step, quick-change print ribbons.

Choose single-color, three-color or four-color ribbons for printing on both sides (duplex). Our three-color ribbons offer crisp, full-color images. Our four-color and black ribbons also include carbon black (K) for use with infra-red bar code scanners.

Inline Coating Options Extend Card Life

Standard print ribbons are ideal for visual ID card applications, including convention or seminar badges. We also offer ribbons that feature an inline topcoat for longer card life...plus clear or holographic topcoats for increased durability and security. Our DuraGard™ polyester overlay provides maximum durability for cards frequently swiped through readers or in service two years or more.

Operator-replaceable Printhead Saves Time and Money

No down time or paying a service technician. Even first-time operators can install a new printhead in seconds and continue making cards. Our operator-replaceable printhead simply snaps into place, with no calibration or adjustment required.

Cleaning Cards Reduce Maintenance

Extend printhead life and improve performance with convenient cleaning cards. You can automatically clean your printer without even opening the cover.

Time-saving Ribbon and Card Cartridges

Easy-to-use ribbon and card cartridges snap into place instantly. The input hopper can be pre-loaded with cards, so you are ready to replace both ribbon and cards in one fast, easy operation... and resume printing in less than 30 seconds.

Inline Protective Topcoat

Increases durability and helps protect images and printed data.

Clear or Holographic Topcoat

Provide additional protection for longer card life or high security, including protection against alterations.

DuraGard Polyester Overlay

The ultimate protection against abrasions, chemicals, other damage or security tampering.
