Overview

- 1. 48x IDE (ATAPI) CD-ROM
- 2. Removable Media Bays (1.6" each)
- 3. 1.44 MB Diskette Drive
- 4. Two 1" Non-hot plug Hard Drive Bays

- 5. Four 64-bit/33MHz PCI
- 6. Processor socket 2 (unpopulated)
- 7. Processor 1 (populated)
- 8. System Fan

What's New

• Supports up to 2 Intel® Xeon® 3.06 GHz or 2.8 GHz processors

Overview

At A Glance

- Two USB ports
- ROM Based Setup Utility (RBSU) and PXE support
- ServerWorks GC-SL Chipset with 533-MHz Front Side Bus
- 512-KB second level ECC cache standard (full speed)
- 256-MB PC2100 ECC DDR SDRAM Memory, expandable to 4 GB
- Four total I/O slots; three available in SCSI models
- 64-Bit/33MHz, 3.3v PCI
- NC7760 PCI Gigabit Server Adapter (embedded)
- Integrated Dual Channel Ultra ATA/100 Adapter with Integrated ATA RAID 0, 1, & 1+0 (ATA Models) or Integrated Single Channel Wide Ultra3 SCSI Adapter in a PCI slot (SCSI Models)
- Support for up to five 1" Ultra320 non-hot-plug SCSI hard drives or four 1" ATA non-hot-plug drives (model dependent)
- SCSI Models (with optional drive cage): Internal storage capacity of up to 1.040 TB (3 x 146.8 GB non-hot-plug + 2 x 300 GB hot plug 1" hard drives)
- ATA Models: Internal storage capacity of up to 640 GB (4 x 160-GB ATA/100 drives)
- Integrated ATI Rage XL with 8MB SDRAM video
- 300W Power Supply
- Systems Insight Manager, SmartStart and Automatic Server Recovery-2 (ASR-2)
- Protected by HP Services, including a one-year, limited warranty, Next Business Day 1 year on-site limited Global warranty and Pre-Failure Warranty, which covers processors, memory, and hard drives Certain restrictions and exclusions apply.

HP Systems Insight

Manager

HP Systems Insight Manager (HP SIM) helps maximize system uptime and performance and reduce system maintenance costs by providing proactive notification of problems before those problems result in unplanned downtime

or reduced productivity. For more information on HP SIM, visit

http://www.hp.com/go/hpsim.

SmartStart SmartStart simplifies server setup by providing a rapid way to deploy reliable

and consistent server configurations. For more information, please visit the

SmartStart Web site at http://www.hp.com/servers/smartstart.

Minimum SmartStart version supported: SmartStart 6.4.

Latest SmartStart version supported: SmartStart 7.2

Management Agents The Management Agents provide direct, browser-based access to in-depth

instrumentation built into HP servers, workstations, desktops, or portables, and send alerts to Systems Insight Manager or other enterprise management applications in case of subsystem or environmental failures. For additional information about the Management Agents and other management products

from HP, visit http://www.hp.com/servers/manage.

Subscriber's Choice Subscriber's Choice Driver and Support Alerts/Notifications is a web-based

email subscription service that provides automatic delivery of software and

The latest software, drivers, and firmware fully optimized and tested for your

driver change notifications for ProLiant products. Sign up at

http://www.hp.com/go/subscriberschoice and customize your profile to

receive alerts on updates as they become available.

Survey Utility and diagnostics utilities

The most advanced configuration analysis, reporting and troubleshooting

utilities used by HP at your fingertips

Available in SmartStart.

Standard Features

Optional ProLiant Essentials Value Packs Optional software offerings that selectively extend the functionality of an Adaptive Infrastructure to address specific business problems and needs:

- Rapid Deployment Pack an automated solution for multi-server deployment and provisioning, enabling companies to quickly and easily adapt to changing business demands.
- Workload Management Pack provides easier management of complex environments, improving overall server utilization and enabling Windows® 2000 customers for the first time to confidently deploy multiple applications on a single multiprocessor ProLiant Server.
- Performance Management Pack a performance management solution that identifies and explains hardware performance bottlenecks on ProLiant servers and attached options enabling users to better utilize their valuable resources.
- Intelligent Networking Pack detects and analyzes network bottlenecks or broken network linkages and steers traffic to the optimum route based on network conditions.
- Vulnerability and Patch Management Pack identifies and remediates software security vulnerabilities due to missing patches as well operating system configurations that can be exploited by viruses, worms, and other blended threats
- Virtual Machine Management Pack provides central management and control of virtual machines from Microsoft and VMware.
 Integrated approach provides the ability to manage both physical and virtual resources from a single management console.

NOTE: Flexible and volume quantity license kits are available for ProLiant Essentials Value Packs. Refer to http://www.hp.com/servers/proliantessentials or the various ProLiant Essentials Value Pack product QuickSpecs for more information.

Standard Features

Rack Airflow Requirements

Rack 10000 series Cabinets

The increasing power of new high-performance processor technology requires increased cooling efficiency for rack-mounted servers. The 10000 Series Racks provide enhanced airflow for maximum cooling, allowing these racks to be fully loaded with servers using the latest processors.

CAUTION: If a third-party rack is used, observe the following additional requirements to ensure adequate airflow and to prevent damage to the equipment:

- Front and rear doors: If your 42U server rack includes closing front and rear doors, you
 must allow 830 square inches (5,350 sq cm) of hole evenly distributed from top to bottom
 to permit adequate airflow (equivalent to the required 64 percent open area for ventilation).
- O <u>Side:</u> The clearance between the installed rack component and the side panels of the rack must be a minimum of 2.75 inches (7 cm).

CAUTION: Always use blanking panels to fill all remaining empty front panel U-spaces in the rack. This arrangement ensures proper airflow. Using a rack without blanking panels results in improper cooling that can lead to thermal damage.

NOTE: For additional information, refer to the Setup and Installation Guide or the Documentation CD provided with the server, or to the server documentation located in the Support section at the following URL: http://h18000.www1.hp.com/products/servers/ProLiantml330/index.html.

Factory Express Portfolio for Servers and Storage

HP Factory Express offers configuration, customization, integration and deployment services for HP servers and storage products. Customers can choose how their factory solutions are built, tested, integrated, shipped and deployed.

Factory Express offers service packages for simple configuration, racking, installation, complex configuration and design services as well as individual factory services, such as image loading, asset tagging, and custom packaging. HP products supported through Factory Express include a wide array of servers and storage: HP Integrity, HP ProLiant, HP ProLiant Server Blades, HP BladeSystem, HP 9000 servers as well as the MSA1000, VA7xxx, EVA3000 & EVA5000, XP, rackable tape libraries and configurable network switches.

For more information on Factory Express services for your specific server model please contact your sales representative or go to $\frac{\text{http://www.hp.com/go/factory-express}}{\text{for your specific server model please contact your sales}}$

Standard Features

Service and Support

One-year limited warranty, including hardware diagnostic support, and pre-failure warranty (coverage of hard drives, memory and processors). The warranty is fully supported by HP Services and a worldwide network of resellers and service providers. An additional 90-day getting started software telephone support may be covered under the warranty or available for an additional fee. Enhancements to warranty services are available through HP Care Pack services.

NOTE: Limited warranty includes 1 year parts, 1 year labor, 1-year on-site support.

Care Pack services provide a range of life cycle support options that let you choose the service levels that meet your business requirements, from basic to mission-critical.

A full range of HP Care Pack hardware and software services are available including:

- Installation and start up
- Education courses
- Extended onsite hardware coverage hours from same business day 13 hours, 5 day to 24 hours, 7 days call window with options including 4-hour response or 6-hour Call To Repair
- Comprehensive range of software technical support for Microsoft, Linux, ProLiant Essentials and VMWare-based IT solutions helping to deliver high level of application availability. Response times range from 30 mins for critical problems to 2 hours.
- System Management, Performance Services and Mission Critical Support Solution

HP Care Pack services include coverage for the HP branded hardware options qualified for the server, purchased at the same time or afterward, internal to the enclosure, as well as 22" and smaller external monitors and tower UPS options up to 3kVA; these items will be covered at the same service level and for the same coverage period as the server. Coverage of UPS Battery is not included, standard warranty terms & conditions apply. For servers or storage systems installed within a rack, service also covers all HP qualified rack options installed within the same rack.

NOTE: For more information on HP Care Pack services, contact any of our worldwide sales offices or resellers or visit our worldwide Web site on the internet at: http://www.hp.com/hps/carepack
NOTE: For more complete information on HP Services offerings, customers and resellers, please visit us at: http://www.hp.com/hps

NOTE: Additional information regarding worldwide limited warranty and technical support is available at: http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html

Standard Features

	Remote Insight Lights-Out Edition II (EMEA)	227251-021
Management Options	Remote Insight Lights-Out Edition II (NA, LA)	227251-00
	HP High-speed PCI soft modem	DC132D
	NOTE: Any NC61XX, or NC71XX NIC can be used for redundancy with the embedded NC7760 Network Controller.	
	HP NC7170 PCI-X Dual Port 1000T Gigabit Server Adapter	313881-B21
	HP NC7771 PCI-X 1000T Gigabit Server Adapter	290563-B21
	NC6770 PCI-X Gigabit Server Adapter, 1000-SX	244949-B21
	HP NC1020 PCI 1000T Gigabit Server Adapter	353377-B21
	HP NC310F PCI-X 1000SX Gigabit Server Adapter	368169-B21
Communications	HP NC150T PCI 4-port Gigabit 1000T Combo Switch Adapter	367132-B2

Tape Drives

NOTE: In order to install certain tape drives internally, you may need to remove the rails that come standard on the drives and then re-insert the screws in the mounting holes. Mounting screws are shipped standard with server.

NOTE: To run external SCSI-based devices, either an Internal-to-External SCSI Cable Option kit (for SCSI models) or a SCSI controller with external channel (for ATA models) must be purchased.

Review the server cabling matrix for additional information on cables required to connect backup products to the server.

Ultrium Tape Drives - External, Rack-Mount and Array

HP StorageWorks Ultrium 215 Tape Drive, External (Carbon)	Q1545A
HP StorageWorks Ultrium 215 rack-mount (Carbon) - Single drive installed in a 1U rack-mount kit	A7444A
HP StorageWorks Ultrium 215 Array Module (Carbon) - Offline hot-swap drive for Tape Array 5300	C7492B
HP StorageWorks Ultrium 230 Tape Drive, External (Carbon)	Q1517A
HP StorageWorks Ultrium 230, Rack-mount (Carbon) - Single drive installed in a 3U rack-mount kit	350545-B21
HP StorageWorks Ultrium 230 Array Module (Carbon) - Offline hot-swap drive for Tape Array 5300	C7470B
HP StorageWorks Ultrium 448 Tape Drive, External (Carbonite)	DW017A
HP StorageWorks Ultrium 448, Rack-mount (Carbonite) - Single drive installed in a 1U rack-mount kit	DW028A
HP StorageWorks Ultrium 448 Tape Drive, Internal (Carbonite)	DW016A
HP StorageWorks Ultrium 460 Tape Drive, External (Carbon)	Q1520A
HP StorageWorks Ultrium 460, Rack-mount (Carbon) - Single drive installed in a 3U rack-mount kit	350546-B21
HP StorageWorks Ultrium 460 Array Module (Carbon) - Offline hot-swap drive for Tape Array 5300	Q1512B

HP StorageWorks Ultrium 960 Tape Drive, External (Carbonite)

Q1539A

Standard Features

HP StorageWorks Ultrium 960 Rack-mount (Carbonite) - Single drive installed in a 3U rack-mount kit	Q1595A

Rack-Mount Tape Drive Enclosures

HP StorageWorks 1U Rack-Mount Kit

A7445A

NOTE: The 1U Rack-mount Kit can support up to 2 half-height tape drives and compatible with multiple Single-Ended and LVD SCSI tape drives including DAT 24, DAT40, DAT72, DLT VS 80, and Ultrium 215 tape drives.

HP StorageWorks 3U Rack-Mount Kit

274338-B21

NOTE: The 3U Rack-Mount Kit can support up to 2 full-height or 4 half-height tape drives and compatible with multiple Single-Ended and LVD SCSI tape drives including DAT, DLT VS80, SDLT 320, Ultrium 215, Ultrium 230, and Ultrium 460 Tape Drives.

HP StorageWorks 5U Rack-Mount Kit

274339-B21

NOTE: The 5U Rack-Mount Kit can support up to 4 full-height tape drives and is compatible with SDLT 320, Ultrium 230, and Ultrium 460 tape drives.

NOTE: Please see the Rack-Mount Tape Drive Kits QuickSpecs for additional information regarding these kits:

http://h18000.www1.hp.com/products/quickspecs/10854_div/10854_div.HTML (Worldwide)

Example of real input watts consumed versus rated watts consumed is available via the online tool located at url: http://inline.compaq.com/pg/ecg/issd/power/psupply.asp

select system calculator for one of the systems and reference the green fields at the bottom of the calculator.

NOTES:

* To review typical system power ratings use the Active Answers Power Calculator which is available via the online tool located at URL: http://h30099.www3.hp.com/configurator/powercalcs.asp.

To drill down to calculators:

- Click on: "ProLiant Servers"
- Click on the Server of interest. Example: ML330 G3
- Click on: "Power Calculator" link (You may need to scroll down to see it.)
