

HP NetServer E 800**HP NetServers:
Simply Reliable**

reference

The easy server your business can depend on

Target audience: Small to medium-sized business and workgroups that:

- Operate with little or no IT support
- Want to minimize the entry-level price and keep the cost of ownership low
- Demand expandability now, plus plenty of room to grow later
- Want easy-to-use server management tools and comprehensive remote support to maximize system uptime
- Need a highly dependable backup and recovery solution that safeguards their data while requiring minimum expertise and effort.

Quick reference: The HP NetServer E 800 . . .

Easy to set up, back up, troubleshoot, and expand, the HP NetServer E 800 is clearly the best solution for businesses with little or no in-house IT support.

The HP NetServer E 800 continues the tradition of HP's superior engineering. Integrated network interface cards (NICs) and powerful Intel® Pentium® III processors provide industry-leading functionality. World-class reliability is built-in with error checking and correcting (ECC) memory, an integrated backup solution, and Automatic Server Restart (ASR). Backed by comprehensive Reseller Support Services for fast, proactive remote support. The HP NetServer E 800 keeps networks up and running with a minimum of effort and maximum productivity and efficiency. Plus, it's expandable, so it can grow as your business needs change.

HP NetServer E 800 Features and Benefits

- **Easy to set up**—HP Navigator for guided setup and installation to get your server up and running quickly
- **Easy to back up**—Fully integrated backup solution available on certain models, including the HP SureStore DAT24i tape drive and intuitive, integrated backup software with HP One-Button Disaster Recovery
- **Easy to troubleshoot**—HP TopTools for Servers with an intuitive, Web-based interface for easy HP NetServer management
- **Easy to expand**—Expandability that will continue to support the growing needs of your business and maximize your computing investment
 - Supports up to two Intel Pentium III 733MHz, 800MHz, or 866MHz processors
 - SDRAM memory upgradable to 2GB
 - Up to 145GB of internal mass storage (4x36GB)
 - 7 available expansion I/O slots (five 32-bit, two 64-bit)

HP	NetServer	E 800
----	-----------	-------

The easy server your business can depend on

Specs-at-a-Glance

Processor	• Up to two Intel Pentium III 733, 800, or 866MHz processors with 133MHz front side bus
Memory	• 128MB buffered ECC SDRAM DIMM, expandable to 2GB
Mass Storage	• Up to 145GB, using four 36.4GB low-profile drives
SCSI controller	• Integrated, dual-channel Ultra2 SCSI controller
I/O Expansion Slots	• Seven PCI slots (five 32-bit, two 64-bit)
Connectivity	• Embedded HP NetServer 10/100TX NIC
Network Operating Systems	• Supports Microsoft® Windows NT® 4.0, Windows NT Small Business Server 4.5, and Windows® 2000 Server; Novell NetWare 4.2, 5.1, and Novell Small Business Suite 5; SCO OpenServer 5.05; and Red Hat Linux 6.1
Management Software	• HP TopTools (including the Auto Alert, Remote Console, and Web Interface modules)
Backup Solution	• HP SureStore DAT24i with HP One-Button Disaster Recovery (available on certain models)
Installation and Configuration	• HP NetServer Navigator for rapid set-up and deployment
