

HEAVY DUTY HAND OPERATED HYDRAULIC CRIMPER

Robust and built to last, the #38C sets the standard for other 12T hydraulic tools.

Precision engineering hydraulic components for maximum reliability, maintenance and ease of use. Accepts all Utilux #38 Series crimp dies for full hexagonal or indent crimping of copper or aluminium connectors/terminations.

Features:

- 2 stage action
- Large crimp range: 6 - 300mm²
- 32mm throat size
- 180° head rotation
- Reinforced glass fibre handles

Specifications:

- Output: 12 tonnes
- Ram stroke: 32mm
- Die set: '38' type dies
- Length: 640mm
- Weight: 7.0kg
- Range: Up to 300mm²

Includes:

- #38C Crimper Unit
- Heavy duty plastic carry case, with die Compartments
- Operation & maintenance manual

Utilux 12 Tonne Crimp Die Kit

- 11 standard copper crimp dies
- 16 mm² to 300 mm²
- Steel carry case
- Space for 5 more dies
