

Light Duty Fuse Links size 00

L562 Miniature, Glass, 5/8" x 3/16" (15,9 x 4,76mm) diameter

This range of miniature fuse links was developed originally for Services' use, but has many applications in instrumentation, electronic data processing machines, printed circuitry, and all miniaturised equipment.

These fuse links have a minimum life of 1,000 hours at rated current, at 20°C. The higher ratings (250 mA and over) blow within 10 seconds at twice their rated current, lower ratings at 3 x Ir.

CONTINUOUS RATING (1000 Hours)	RATED VOLTAGE d.c.	COLOUR CODE
50mA	900V	Salmon Pink

Light & Heavy Duty Fuse Links

size 00 & 20mm x 5mm

L 754 Miniature, Ceramic

5/8" x 3/16" (15,9 x 4,76 mm) diameter

These fuse links range from 50mA to 2A and have a category of duty 250V AC2, 230V DC2 (max. prospective overload 4000A at 0.4 pf and 250V a.c.), and so may be described as high-rupturing capacity fuse links. They have a minimum life of 1000 hours at rated current at temperatures up to 25°C and at 80% of their rated current at temperatures beyond this up to 100°C. Temperature range: -60° to +100°C. Humidity classification, D.T.D. 1085-C.

Specification: DEF.63

Marking: Body colour coded and marked with rating

Weight (average): 0,85 g (0.03 oz)

Belling-Lee

reference nos.: L754/current rating. Example L754/050 is a 50mA fuse link.

Fuseholders: *L575 panel mounting
*L675 sealed, panel mounting
L1383 for printed circuit mounting
L1596 panel mounting

*Qualification Approved

Note: The L754 range of fuse links has been extended downwards for instrument protection and other light duty applications, by the addition of 10, 15 and 25 mA ratings.

Heavy Duty 'Air-Fuse'

L 1330

Cut-outs minima, normal tolerance ± 0.005 ".
DIMENSIONS: Overall sizes and fixing centres nominal.
Figures in brackets are approx. mm equivalents.

L 1330 "Airfuse"

The "Airfuse" is the British equivalent of the Burndy "Current Limiter" used in 28 V.d.c. aircraft power supply circuits. Needing no holder, the "Airfuse" commends itself to the aircraft industry by its saving in weight, and has Air Registration Board Approval. It has numerous other applications, such as the

protection of battery driven vehicles, heavy current rectifiers, and low voltage furnaces, etcetera.

The "Airfuse" is an unfilled fuse link in a ceramic housing, with a transparent window for inspection. Heavy duty terminal lugs are fitted. There are eleven standard ratings from 35A to 500A.

Specification:	B.S. G176, parts 1 and 4
Current Ratings: (In Amps):	35, 50, 80, 100, 130, 150, 200, 225, 275, 325, 500A
Max. Prospective Overload:	35A-2,500A, remainder 3,000A, at 30V d.c.
Life:	>1,000 hours at rated current, at 20°C
Temperature Range:	-65° to +70°C
Humidity	Class H ₁
Altitude:	60,000ft (18000m)
Acceleration:	B.S. G100, grade 3 Class A
Vibration:	B.S. G100, for grade 2 and 3 equipment
Materials:	Body, ceramic. Window, glass, Element, tinned Copper.
Weight (average):	18,7-29,8g (0.66-1.05 oz) according to rating
Marking:	Rating printed on the window, and stamped on lug.

L 1744 FUSEHOLDER, PANEL, BAYONET LOCKING

A panel mounting fuseholder for $1\frac{1}{4}$ " $(32 \times 6,3\text{mm})$ fuse links fitting a 0.515 " diameter panel piercing. It has a bayonet locking cap and connection posts suitable for soldering or for $\frac{1}{4}$ " $(6,3\text{mm})$ solderless snap-on connectors. A special insulation barrier is incorporated to provide superior internal breakdown performance.

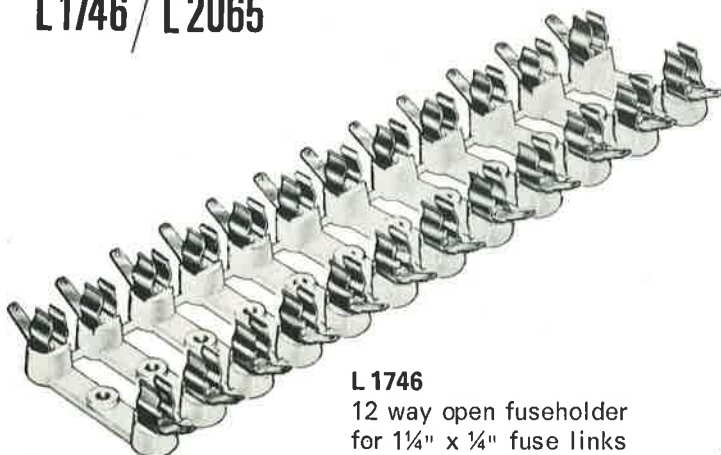

Current Rating:	30A max. (see de-rating table above)
Breakdown Voltage:	> 4kV between terminations > 10kV terminations to panel
Insulation Resistance:	> 10×10^9 megohms
Insertion Resistance:	< 2 milli-ohms
Humidity:	H5 (DEF.5011)
Temperature Range:	-55° to $+100^\circ\text{C}$
Panel Thickness (max.):	0.313 in (7,9mm)
Fixing Torque (max.):	1,13 Nm (10lbf-in)
Moulding:	Phenolic
Contacts:	Brass, silver-plated
Weight (average):	13,7g (4 48 oz)

L1896 MINIATURE PANEL LAMPHOLDER

This miniature panel lampholder has been designed to match the styling of our existing range of fuse-holders L1596 for $\frac{5}{8}$ " x $\frac{3}{4}$ " and E6011 for 20 x 5 mm fuse links; having the same panel cutout and a single fixing nut. The addition of a locating spigot on the underside of its rim prevents rotation on the panel.

By unscrewing the lense, the bulb withdraws from the front of the panel, which makes the task of

replacing the bulb very much simpler. The lenses are moulded in polycarbonate and are available in amber, blue, clear, green and red, while the body is a phenolic moulding.

The L1896 lampholder utilizes the L.E.S. pea-lamps, giving a range of voltage ratings and filament life requirements.

Insertion Resistance:	< 5 milli-ohms
Power Rating (lamp):	> 1.5 watts (temperature rise > 40°C)
Voltage Proof:	2 kV @ 50 Hz
Insulation Resistance:	> 100 megohms
Temperature Range:	-55° to +60°C
Panel Thickness (max.):	0.125 in (3.17 mm)
Fixing Torque (max.):	1.36 Nm (12 lbf-in)
Colours (lens):	Amber, blue, clear, green or red
Materials and Finish:	Body moulding, Phenolic Lens, polycarbonate Contacts, silver-plated
Lamp Style:	5 mm tubular, Lilliput Edison screw cap (E5/8)

Lid only
illustrated.

L 676

L 1045/C3 Fusebox, single pole

L 1033/C4 Double pole version

Suitable for chassis or panel mounting, these fuseboxes accept standard $1\frac{1}{4} \times \frac{1}{4}$ inch fuse links. These are carried in the lid, and are automatically exposed and isolated from the circuit as the lid is raised. Leads may be inserted through the back or through the ends of the box.

L 1291 Fusebox, double pole, semi-recessed

The carrier of this robust component is retained by a central screw which may be wired to discourage unauthorised access. The body is secured by a clamp below the chassis.

Data

Current rating for 40°C temperature rise: 10A

Breakdown (d.c.): between poles $>8\text{kV}$
poles to chassis $>4\text{kV}$

Temperature range: -40° to $+90^{\circ}\text{C}$

L 670 Fusebox, single pole, sealed

L 672 Double pole version.

These qualification approved components have beryllium-copper fuse clips, precipitation hardened, which provide consistent contact pressure on the fuse links. Technical data is on page E11.

L 676 Fusebox, indicating, double pole, sealed

Similar to L672, but this unit has two neon lamp-holders incorporated, with a resistor network so wired that each lamp is extinguished when the associated fuse link blows. The non-reversible lid also fits the L672 base. Supplied without lamps; GEC type 9 and Hivac type 7L are suitable.

Data: See page E11.

This series of panel mounting fuseholders was developed in collaboration with the Ministry of Supply, for use in military air, sea, and land vehicles, but has many industrial applications, too.

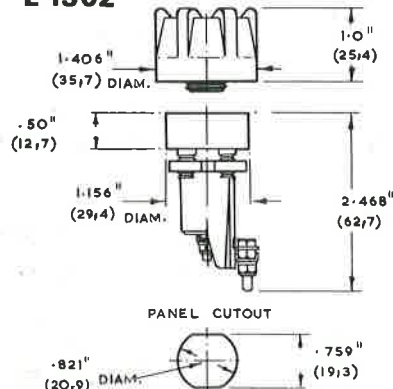

Fuse link withdrawal is effected automatically as the lid is unscrewed. The variety with the larger lid provides a fingerguard and increased creepage path for additional safety, permitting a higher working voltage to be used.

Mounting on the panel is effected through a single hole, shaped to engage the anti-swivel flats on the fuseholder body, which is secured with a ringnut. The terminals are supplied complete with washers and shakeproof nuts.
