DESCRIPTION

Preset Push Button Timers

BOX QUANTITY 1

OUTER QUANTITY 10

FEATURES

Four different preset values available – 5 minutes, 15 minutes, 30 minutes, 60 minutes and 120 minutes.
Accurate to +/- 6%.
Double pole switching, normally open contacts.
One touch activation.
'Off' button included for override of the timing Sequence – this also resets the timer.
230-240V a.c., 50Hz, 20A resistive.
600 series styling.
Tested to AS3100: 1994.

APPLICATIONS

Control of heating, fan, irrigation or lighting loads up to 20A resistive.
Any application where timed operation of a load is required.

FAQ's

Must have the Neutral running to the timer, however not required to switch it.
No fluro rating.
