

## RICOH FAX3700L

Productive Laser PPF with 14.4Kbps modem speed

### Other Features

- One-Hour Memory Backup
- ITU-T Error Correction Mode (ECM)
- Function Setting by Destination
- Chain Dialling
- Restricted Access
- Centre Mark
- Wild Card Search
- Authorised Reception
- 7 Group Dialling
- Confidential Transmission/Reception
- Closed Network
- Transfer Request
- Polling Transmission/Reception
- Auto Document
- Send Later
- Substitute Reception
- Serial Broadcasting (132 destinations)
- Auto Redial

- Automatic Page Retransmission
- Night Timer
- Remote Diagnostic System

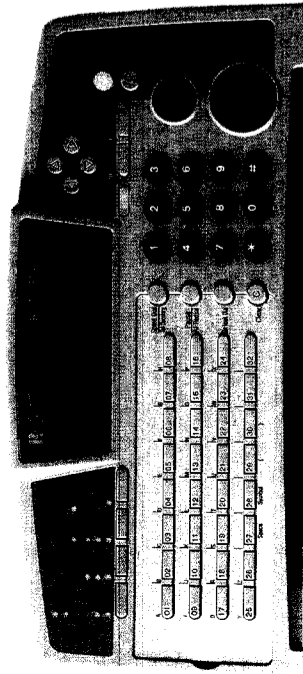

Consult your local dealer for availability of Printer Interface Type 200 and PC-Fax Expander.

### Specifications:

<b>Type</b>	Desktop Type Transceiver	<b>Printing System</b>	Laser Printing, Plain Paper
<b>Circuit</b>	PSTN, PABX	<b>Recording Paper</b>	Cut Paper: A4, A5, F, F4 (B4, A4)*
<b>Compatibility</b>	ITU (CCITT) Group 3 machines	<b>Paper Capacity</b>	Standard: 250 sheets with manual feed Optional: 500 sheets (Paper Feed Unit Type 140F) 100 sheets (Paper Cassette Type 100)
<b>Document Input Size</b>	Length: 105 — 420 mm Width: 148 — 304 mm Thickness: 0.05 — 0.2 mm	<b>Power Supply</b>	220 — 240V, 50Hz/110V, 60Hz*
<b>ADF Capacity</b>	30 sheets (using 80g/m <sup>2</sup> paper)	<b>Standby:</b>	Minimum 2W Normal 25W
<b>Scanning Method</b>	Flatbed, with Contact Image Sensor	<b>Transmission:</b>	30W
<b>Scanning Width</b>	256 +/- 1 mm (B4)	<b>Reception:</b>	210W
<b>Resolution</b>	8 x 3.85 l/mm (Standard) 8 x 7.7 l/mm (Detail)	<b>Copying:</b>	270W
<b>Memory Capacity</b>	8 x 15.4 l/mm (Fine)	<b>Dimensions (W x D x H)</b>	475 x 459 x 252 mm (excluding tray and options)
<b>Compression Method</b>	Standard: 0.5MB = 40 pages Optional: + 2MB = 207 pages + 4MB = 371 pages	<b>Weight</b>	Approx. 17 kg (excluding CTM, trays and options)
<b>Modulation</b>	MH, MR, MMR, EFC, SSC	<b>Options</b>	Feature Expander Type 100 2M (2 MB) Feature Expander Type 100 4M (4 MB) Paper Feed Unit Type 140F Paper Cassette Type 100 Printer Interface Type 200 PC-Fax Expander Type 100**
<b>Modem Speed</b>	14400/12000/9600/7200/4800/2400 bps, automatic fallback		
<b>Transmission Speed</b>	6 sec. (ITU-T No. 1 Chart at standard resolution)

### Quality control means business to Ricoh.

At Ricoh, quality control is a company-wide endeavour and philosophy, not just simple and isolated inspections. It involves planning and development surveys that improve design and streamline production, as well as statistical analysis that ensures an error-free manufacturing process. And this dedication to quality continues through sales and service activities. Such a system is why Ricoh was the first company in the business machine field to win the coveted Deming Prize for quality control.

Ricoh has been granted a certificate of ISO 9001, which is the International Standard for Quality Systems.

Ricoh believes in conserving the earth's precious natural resources.  
This brochure is printed on recycled paper.

## RICOH FAX3700L

Productive Laser PPF with 14.4Kbps modem speed

## Backbone of your communications success

## Integrate all your office communications in one powerful facsimile

### Scroll Key

The scroll keys are strategically positioned beside the LCD to provide convenient access to all of your most commonly used features. Simply touch the scroll keys to select your desired function on the LCD.

### Optional Expansion Features

#### Feature Expander Type 100 2M/4M

The standard 0.5Mb (40 pages) memory can be expanded by 2M or 4M using Feature Expander Option Type 100. This option not only enlarges the available memory, but it also incorporates the following convenient features:

- **Batch Transmission** enables you to send several different documents to the same destination in a single call to save on communication charges.
- **Forwarding** enables you to automatically transfer received documents from one location to another, such as from your main office to your home.
- **Transmission Deadline** continues to dial the designated destination until it completes your preprogrammed time limit.

Other features include **Multi-Sort Document Reception, Reverse Order Printing** and **Memory Lock.**

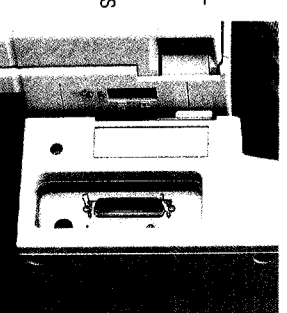

### 100-Sheet Paper Cassette and 500-Sheet Paper Feed Unit

As your communication needs grow, you can expand from the standard 250-sheet paper capacity. Add Paper Cassette Type 100 for an extra 100 sheets, or Paper Feed Unit Type 140F for 500 sheets of paper. Overall, the FAX3700L offers a capacity of 850 sheets of paper. Paper Cassette Type 100 also features a manual feed override function which allows you to recycle paper.

### PC Connectivity

#### Pseudo-600dpi Printer Interface

The Printer Interface Type 200 enables your FAX3700L to function as a high-speed 10ppm laser printer for valuable savings in cost and space. It boasts an impressive pseudo-600dpi printout quality. And because the main unit features a manual feed, you need never worry about changing cassettes when printing to special papers such as your company letterhead.

#### PC Fax Expander

Install the PC-FAX Expander Type 100 and use your FAX3700L as a fax modem, scanner and printer for your personal computer. Nothing could be more convenient!

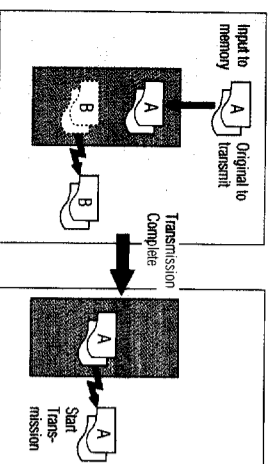

### Essential Productivity

#### Fast 2.8-Second Scanning Speed

The FAX3700L allows scanning of up to B4-size documents. And you can scan a standard A4-size document into the memory in just 2.8 seconds.

#### Dual Access

The FAX3700L is always ready to use — even while transmitting or receiving another fax messages. Simply place your document in the feeder and dial the number. The 3700L instantly stores your fax in its memory and sends it automatically as soon as the previous transmission or reception is complete.

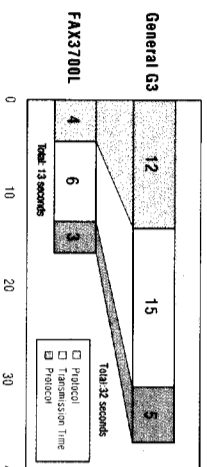

#### 10 PPM Print Speed

The printout speed is a fast 10 pages per minute.

#### Improved 6-Second Transmission & AI Protocol

A built-in 14.4Kbps modem enables you to transmit an A4 page in just 6 seconds. And when you communicate with other facsimiles that incorporate the Ricoh AI (Artificial Intelligence) protocol, your overall transmission time is reduced for major communication charge savings.

#### 30-Page ADF

Whether you're feeding or scanning, the FAX3700L accepts up to 30 document pages at a time — smoothly and efficiently — to save you time and trouble.

### User-Friendly Design

#### Full Front Operation

The FAX3700L enables you to send and receive documents, load recording paper and replace toner all from the front of the machine. Not only does this ensure greater operational convenience, but it also provides you with important space savings.

#### 32 Quick Dials/90 Speed Dials

The FAX3700L offers 32 Quick Dials and 90 Speed Dials to deliver easy access to frequently dialed destinations. The Quick Dial Keys also allow registration of complex functions such as Serial Broadcasting for easy one-touch operation.

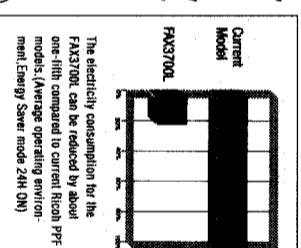

#### Direct Number Entry

This feature proves beneficial when sending to fax numbers which you haven't preprogrammed. Simply select the other party's number from the document cover, then after confirming the number on the LCD, set the document in the feeder and press the start button.

#### Energy Saver Mode

"Energy Saver Function" is a valuable new power management feature. At a touch of the "Energy Saver Key", or after five minutes of non-use, the FAX3700L switches to Energy Saver mode, thereby reducing electricity consumption to as low as 2 watts.

Even in minimum energy consumption mode (2 watts), the FAX3700L detects all incoming calls to print your messages with speed and efficiency.
