

Three years of innovative R&D
all for simpler and better use

Upgrade width printing of
0.5mm²~25mm² sleeve

Simpler operation
No casing adjuster needed

2600mAh battery
200m uninterrupted printing

Connect
phone and computer

300dpi
HD Thermal Transfer

Compact size
Easy to carry

THE SIMPLER THE BETTER

Product Specifications

Product Dimensions	231*240*105mm	Product Weight	2.1kg
Printing Method	Thermal Transfer	Printing Precision	300dpi
Printing Speed	Max 38 segs/min	Print Length	10~100mm
Connection Method	Bluetooth / USB Type-B	Effective Printing Width	9mm
Cutting Method	Auto Half-Cut / Auto Full-Cut	Built-in Lithium Battery	2600mAh
Supplies Types	Marker sleeve / heat shrink

NIIMBOT C1

Smart Tube Printer

Redefine The Smart Age of Wire Markers

The NIIMBOT C1 is a compact, portable smart label printer developed over three years by NIIMBOT. Featuring a brand-new industrial design, it's easy to carry and convenient to use. The printer incorporates four major innovations: an upgraded print width supporting sleeves from 0.5 mm² to 25 mm² and heat shrink tube printing from Φ1.0mm to Φ8.0mm; a built-in 2600mAh battery enabling 200 meters of uninterrupted printing with support for printing while charging; simple mobile/PC connectivity for editing; and a no-sleeve-adjuster design for effortless operation with zero learning curve. The C1 delivers a simpler, much better user experience for straightforward, down-to-earth engineers.

- Minimalist design, simple install no sleeve adjuster, easy tube handling

Ribbon Loading Guide

Sleeve Installation Diagram

- Works on both phone and computer.
Easy to use with convenient cloud storage.

- Dedicated Wire Marker App.
Efficient, Convenient, Flexible.

- Smart PC Edition:
3 Major Innovations for Simpler Editing.

- Upgraded width
Meets more printing demands

- 4 Key Automation Designs
Simple to use, efficient and effortless
