

SWIFT M2250B SERIES

Compound Student Microscopes

1 Versatility

- ◆ Suitable for teaching Elementary, Junior High and High School
- ◆ M2251B offers standard 3 objectives; M2253B is scaled down to be even more affordable

2 Quality

- ◆ The M2251B is affordable and built to the same exacting standards as Swift's more advanced models, including DIN optics
- ◆ Swift quality construction assures durability and minimal down time
- ◆ Lower repair costs = \$ savings

3 Student Proof

- ◆ Locked-on eyepieces and stage clips
- ◆ Slip-clutch avoids gear damage
- ◆ Cord holder helps avoid cord pullout and offers a convenient mode of cord storage
- ◆ Bottom plate protects student hands from electrical shock
- ◆ Retractable 40X objectives protect delicate lenses

4 Value-Added

- ◆ Separate coarse & fine focus = simple design that is easy to repair
- ◆ Illuminator diffuser helps reduce heat to your slides
- ◆ Sturdy bottom plate helps protect electrical sources
- ◆ Special gear lubricant remains stable @ normal temperature fluctuations
- ◆ Eternal parts availability guarantees you a working microscope for many years to come

5 Magnification Options
