

This upper surface may be used for OTHER displays viewable from other positions than at the consoles.

Opening to accept PELCO 20~21" Model PMC21A (which is 10U = 444.5mm) (or 14" Model PMC14F which is 8U) Colour Monitor with Rack Brackets

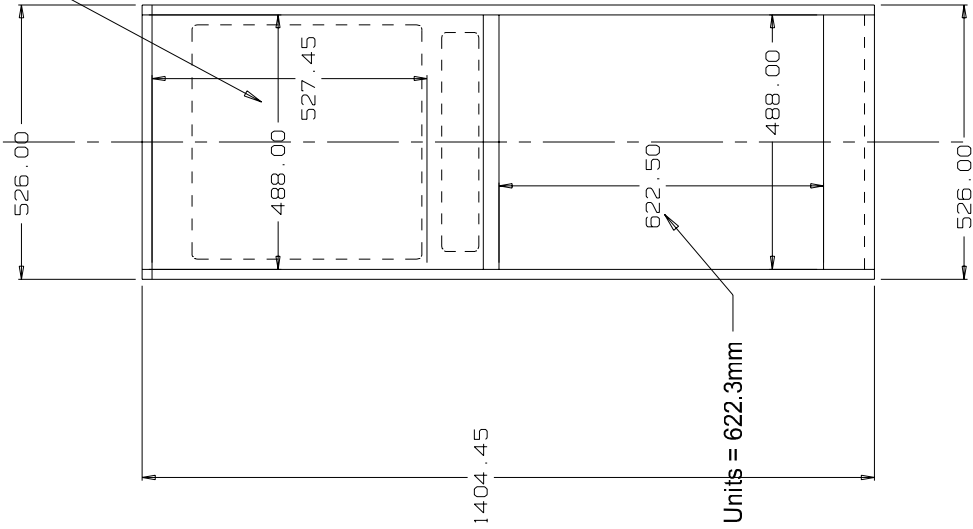

The detail internal shape will be determined by the cabinetmakers machinery.

14 Rack Units = 622.3mm provided by CASA's RA393 extrusion fixed to 488mm sides of the cabinetwork.

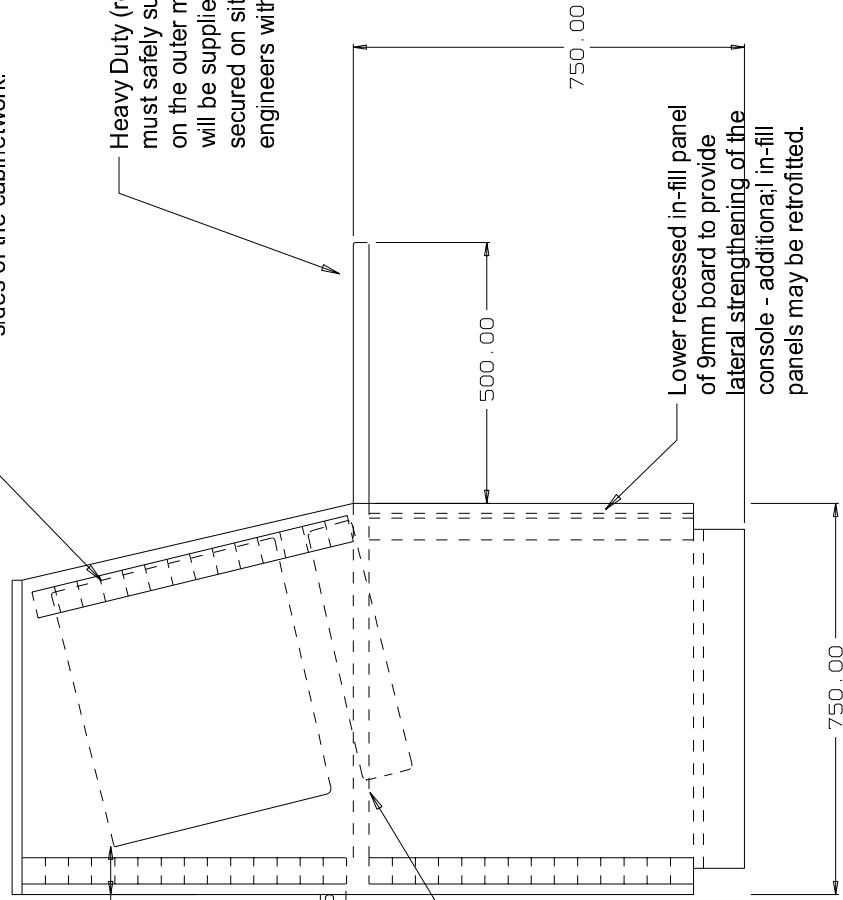

Heavy Duty (removable) Desktop must safely sustain full body weight on the outer most edge. The desktop will be supplied loose and will be secured on site by the installation engineers with cleats and screws.

Depending upon the required position and orientation of the 20" monitor and the VCR installed underneath, it may be necessary provide a cut-out in the shelf and rear surface of the desktop and/or support in the desktop for this lower VCR.

Nominal overall depth may well be smaller than 750mm to suit cutting economy etc.

14 Rack Units = 622.3mm

Lower recessed in-fill panel of 9mm board to provide lateral strengthening of the console - additional in-fill panels may be retrofitted.
