

TOROIDAL TRANSFORMERS:

We manufacture a range of high quality low loss transformers for both audio and power applications. These units can be made with a low profile and have a very low flux leakage. Price will be dependent upon design requirements.

"Linsley Hood" Amplifier 33-0-33v at 300VA
"Quad Current Dumper" 36-0-36v at 300VA

IGNITION TRANSFORMERS:

A small range of ignition transformers is held, mainly as replacements for imported items. All standard units are 230 volt primary.

Volts	Current	Type
5000	25mA	IG5
7500	25mA	IG7
10000	25mA	IG10

SWIMMING POOL LIGHTING TRANSFORMERS:

Totally encapsulated, double-insulated transformers to Australian Standard ASC 126. These units are suitable for either permanent wiring or portable use. Telarc Laboratory Certificate is available for exporters. For swimming pool use, supply one lamp per winding only, to conform with N.Z.E.D. requirements.

Power Rating	Type	Length	Depth	Height
50VA	PL50	160	110	80
100VA	PL100			

MOTOR STARTING AUTO-TRANSFORMERS:

These transformers are to BS587:1957; all incorporate pockets for microtherms which will be fitted to your order. Popular sizes are in stock, otherwise delivery is 3-4 weeks from receipt of order. Ratings are given in horsepower, kilowatts in brackets.

Type	Ord. Duty (2 starts/hr)	Int. Duty (15 starts/hr)	Freq. Duty (40 starts/hr)	Length mm	Depth mm	Height mm	Weight kg
TA10	10 (7.5)	7.5 (5.6)	5.5 (4.1)	260	180	220	20
TA20	20 (15)	15 (11)	10 (7.5)	300	190	225	25
TA30	30 (22)	20 (15)	15 (11)	290	130	280	32
TA40	40 (30)	30 (22)	20 (15)	290	140	280	38
TA50	50 (37)	35 (26)	25 (19)	290	170	280	45
TA60	60 (45)	40 (30)	30 (22)	385	160	360	52
TA80	80 (60)	50 (37)	40 (30)	385	165	330	66
TA100	100 (75)	60 (45)	50 (37)	385	165	330	70
TA125	125 (93)	80 (60)	55 (41)	385	180	330	94
TA150	150 (112)	100 (75)	60 (45)	435	175	360	98
TA175	175 (130)	125 (93)	75 (56)	435	180	360	110
TA200	200 (150)	150 (112)	85 (63)	510	165	460	130

TA450	450 (340)	375 (280)	300 (224)	540	230	460	210
TA600	600 (450)	450 (340)	400 (300)	600	265	580	263

All transformers are unconditionally guaranteed for 12 months from date of purchase, against all defects in materials or workmanship; this guarantee to cover materials and labour, but excluding freight costs.

Unless alternative instructions are given, the most economical method of delivery will be used (normally post, NZR Road Services or Merv. Clark Carriers).
