Prices in U.S. Dollars

Terms

Prices and specifications are subject to change without notice. Prices as listed are based on delivery FOB Origin for U.S. domestic orders and EXW, Andrew Factory, for international orders. Prices do not include export packing, insurance, taxes, tariffs, or duties. Refundable deposits are charged for some skids and large size cable reels. All orders are subject to a minimum charge of \$50.00 net. Contact your local Andrew representative or Sales Office for specific quotations regarding price, delivery, payment, and other terms of sale.

All orders are subject to acceptance by Andrew and shall be governed by the Andrew Terms and Conditions of Sale applicable to the Andrew location accepting the order.

Shipping Information

The figures on the following pages are for guidance in planning transportation requirements. The information is subject to change and, therefore, should be considered approximate.

Shipments from all Manufacturing Locations

Microwave Antennas

General. 10 ft (3.0 m) and larger antennas and molded radomes may require special handling in shipping, depending on destination and routing. For systems requiring a large number of antennas, special packs can be quoted to reduce shipping volume. For example, it is often convenient to pack all antennas for the same site into the same box. Andrew can also provide bulk transport and on-site assembly of antennas. Contact our Customer Service Department for details.

One and Two-Piece Antennas. Antennas are supplied with one-piece reflectors or with two-piece reflectors split through the center and bolted together at the site. GRIDPAK® and Mini GRIDPAK antennas are supplied with reflectors that are completely disassembled.

Standard Pack. In most cases, Andrew standard packing is suitable for export. 2 ft (0.6 m) antennas and 2 ft radomes are shipped in cartons. Larger size antennas are shipped as one unit in a crate. GRIDPAK antennas and mounts are shipped in one carton or crate. 4-12 ft (1.2 - 3.7 m) radomes are shipped in wood crates.

Heavy Duty Export Pack. For your convenience, Andrew also offers a heavy duty packing option, which includes barrier bag sealing of feeds and plywood sheathing of the entire antenna crate. This packing is suitable for ocean container or air shipment. Multiple packing is also available which will provide considerable savings to the customer.

Heavy Duty Export Crate Plywood Sheathing

HELIAX Coaxial Cables and Elliptical Waveguides

HELIAX coaxial cables and elliptical waveguides are shipped in cartons, wood boxes, or on reels.

Domestic Shipments within Countries of Operation. Small reels are disposable. Larger reels are returnable to Andrew “freight collect” if they are in good condition and in “full truckload” lots. Disposable and returnable reels are identified in the tables. Contact our Customer Support Center for detailed return information.

International Shipments. Specially constructed reels are normally sold as an item of export packing.

Ocean and Other Special Transport. Contact Andrew.

The tables show the lengths of cable with or without connectors, shipped in cartons, wood boxes, disposable reels and returnable reels.

Shipping information is subject to change without notice. For current information, contact Andrew.
