

# MEDIAGATE

## Digital Media Player Series

www.airlinktek.com

The MediaGate series is a revolutionary way to view movies, photos and listen to music. The MG350HD, MG35 and MG25 are hard drive enclosures that have the capability to decode all your movie, picture and music files. Simply download your files onto the hard drive in the MediaGate (this can be done wirelessly using the MG350HD) and plug it into your TV to view your media files.

### Wireless Digital Media Player with NDAS

#### ALT-MG350HD

- Watch High Definition movies on Standard Definition TVs
- Built-in hardware zoom (great with high definition movies)
- Featuring NDAS networking technology (no more complicated network setups)
- Supports HD MPEG-2, MPEG-4 and WMV9 files
- Supports JPEG, BMP, GIF and PNG still picture.
- Supports MP1/2 MP@ML, MP4 ASP@L5, DivX 3.11, 4.x and 5.x, 6.x, JPEG
- Supports Dolby digital, MP1 and MP2 Layers I, II and III (MP3), WMA
- Supports stereo L/R, optical/coaxial digital audio, analog 5.1 channels
- Supports DVI, composite, s-video optical (audio) and component video outputs.
- 11g wireless connection and 10/100 ethernet port.
- USB 2.0 host port; USB storage devices can be attached and the stored content can be played directly. (ie external HDD)
- USB 2.0 slave port; provides an alternative way to download digital content from your PC directly.
- Wirelessly stream media from other PCs
- Enables file surfing from multiple sources on a TV using the remote control i.e. PCs on the network, HDD inside and USB devices attached.
- HDD is not included
