

# THE COMPUTER IS PERSONAL AGAIN.

## HP COMPAQ DC5750 BUSINESS PC SERIES

HP recommends Windows Vista™ Business

Building a high-performing team? You need PCs that work as hard as you do. With advanced performance and power efficiency, standard productivity features and stable, long lifecycles, the HP Compaq dc5750 Business Desktop PC provides a great alternative choice for your demanding business environment.

### Ready to perform with you

Easily conquer your demanding business requirements with the high performance of AMD technology while operating with quiet, power-efficient features. The HP Compaq dc5750 PC is packed with productivity features that exceed those found in traditional mainstream PCs, such as energy-efficient processors, low-power chipset and Cool n' Quiet technology. Give your productivity a boost with dual monitor and RAID support, and high-performance graphics. All this at a competitive price.

### Take advantage of managed integration

Get the image stability and long lifecycle that your managed environment needs for ease of business use and integration. Take advantage of the many stability, consistency, and manageability features designed to fit organizations of all sizes:

- A comprehensive suite of client hardware and software lifecycle management tools accessible from a single integrated console to help make your IT staff more efficient and productive.
- 12+ month lifecycle to help your businesses plan for and maintain a consistent work environment.
- Common and stable software image to help reduce IT test time and support costs.
- Global series SKUs for product consistency and to help streamline IT management.

### Help protect your critical resources

Get the protection your business requires with the robust security offering available with the HP Compaq dc5750 PC:

- HP ProtectTools security suite delivers an assortment of hardware and software tools to help provide the protection that you need.
- RAID 1 configuration and HP Backup and Recovery Manager help keep your data safe from corruption.
- HP Business PC Security Locks help safeguard physical assets against theft or tampering.

\* Certain Windows Vista product features require advanced or additional hardware. See

<http://www.microsoft.com/windowsvista/getready/hardwarereqs.mspx> and <http://www.microsoft.com/windowsvista/getready/capable.mspx> for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit <http://www.windowsvista.com/upgradeadvisor>.

1 This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of the AMD 64 processor. Given the wide range of software applications available, performance of a system including a 64-bit operating system will vary.

2 Above 3 GB, all memory may not be available due to system resource requirements.

3 GB = 1 billion bytes. Actual formatted capacity is less. Up to 8 GB is reserved for system recovery software.

4 16X Max DVD+/-RW Drive data transfer rates up to 6000 KB/s (CD) and 22,000 KB/s (DVD). 24X Max CD-ROM Drive data transfer rates up to 3600 KB/s. 48X Max CD-ROM Drive transfer rates up to 7200 KB/s. 48X Max DVD/CD-RW Combo Drive data transfer rates up to 7200 KB/s.

5 LightScribe creates a grayscale image similar to a black and white photograph. LightScribe media required and is not included.
