# Keeping business on the move.

Today's business world moves faster than ever. You need a mobile computing solution that can keep up — with the dynamics of a mobile business environment and the demands of mobile business users. Since launching the first portable PC 20 years ago, Toshiba has been setting the pace of the mobile computing experience. The Toshiba Tecra® family of business-class notebooks delivers the best of Toshiba innovation, reliability and performance for business users on the go.

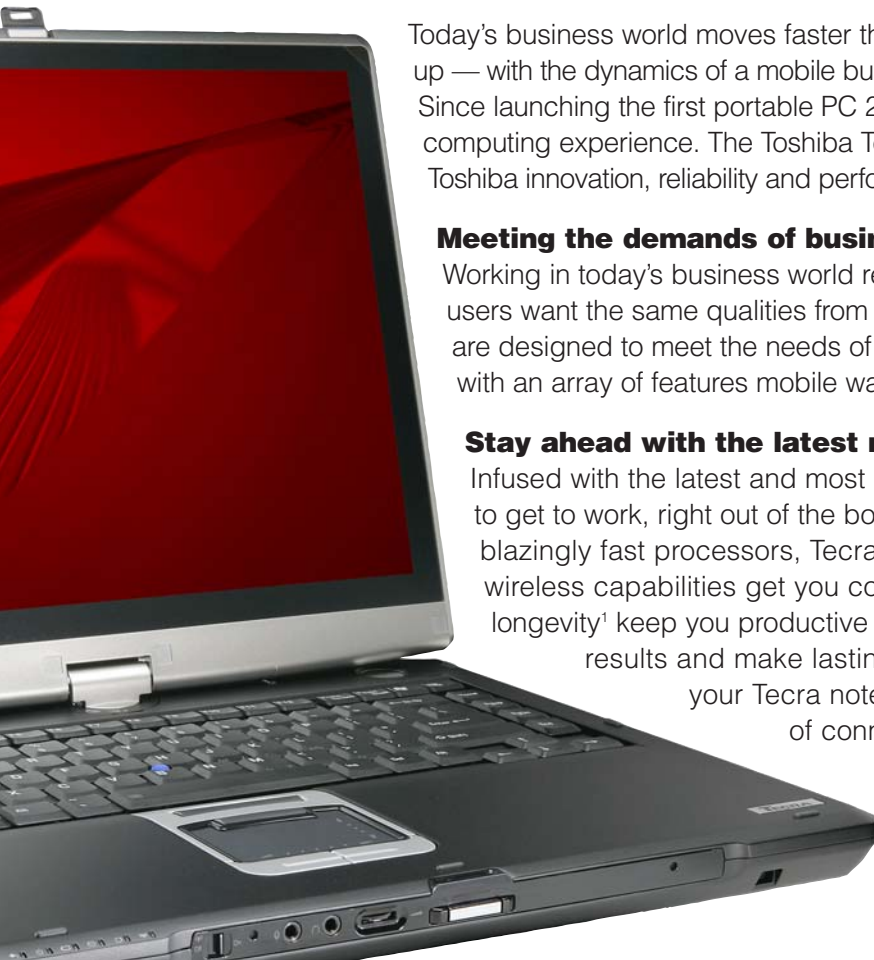

## **Meeting the demands of business. And business users.**

Working in today's business world requires mobility, agility and plenty of get-up-and-go. Business users want the same qualities from their computing solutions. Toshiba Tecra business notebooks are designed to meet the needs of the most demanding business environments — and users — with an array of features mobile warriors want most.

## **Stay ahead with the latest mobile technology.**

Infused with the latest and most advanced mobile technologies, Tecra notebooks are ready to get to work, right out of the box. Powered by Intel® Centrino® Duo Mobile Technology and blazingly fast processors, Tecra notebooks perform at the speed of business. Integrated wireless capabilities get you connected and cable-free, while innovations in battery longevity<sup>1</sup> keep you productive longer. Professional-grade nVIDIA® graphics deliver stunning results and make lasting impressions. A series of built-in enhancements equip your Tecra notebook — and you — with advanced data protection, ease of connectivity, customization and productivity tools that take your mobile computing experience to even greater lengths.

## **Performance you can rely on.**

Go mobile with more confidence, knowing that your Tecra notebook will perform when you need it to, the way you need it to. Engineered from leading-edge components, using superior manufacturing techniques and subjected to rigorous testing, Tecra notebooks offer impressive longevity and durability necessary in a long-term business solution.

## **Tecra works the way you do.**

Different mobile business users have different preferences and needs. Supremely scalable Tecra business notebooks offer highly customizable platforms that can be easily configured to meet the exact demands of your users. Tecra notebooks' comprehensive, integrated docking features let you work with the printers, monitors and other desk-bound peripherals you need to stay productive.

## **A smart business move.**

Mobilizing your workforce with Toshiba Tecra notebooks is more than a smart business strategy. It is also a sound business investment. A stable product built on stable technology, Tecra notebooks offer long product lifecycles, which means when the time comes to refresh your notebooks, you won't have to worry about managing multiple systems. Designed with common hardware components, your fleet of Tecra notebooks is also easier and more cost-effective to maintain. Simplified deployment and maintenance help you maximize your IT budget so you can focus your IT resources where they are most needed.

## Get going. Keep moving. Stay productive.

Go about your business — wherever your business takes you — with complete confidence. Equipped with EasyGuard™ technology, a built-in series of system enhancements, Tecra notebooks\* are designed to stay up and running, so you can as well.

### EasyGuard Protect & Fix

The road can be rough, but your Tecra notebook\* is equipped to handle it with EasyGuard Protect & Fix. Design and manufacturing innovations like 3D fall detection and shock absorption<sup>2</sup> help protect vital notebook components — and data — from drops and other stresses. Should your notebook become damaged, the Toshiba PC Diagnostic tool helps you minimize downtime and allows you to get back to work.

### EasyGuard Secure

Safeguard your data when you're on the road and in unfamiliar settings with EasyGuard Secure. Features like Multiple-Level Password utilities and biometric fingerprint authentication help prevent unauthorized access, while HDLock™ and the Trusted Platform Module (TPM) provide advanced data encryption to secure your sensitive data. Additional features help protect the notebook itself — as well as the data inside it — from theft or misuse.

### EasyGuard Connect

Using a patented wireless antenna design and robust software application, EasyGuard Connect makes it quick and easy to establish the strongest wired or wireless connection available, even in unfamiliar locations. Toshiba ConfigFree™ software allows users to automatically connect to a network, saving user profiles and simplifying troubleshooting when problems arise, while the ConfigFree Summit feature enables data to be transferred over a wired or wireless connection to multiple users simultaneously.

### EasyGuard Optimize

Using EasyGuard Optimize, users can customize notebook settings to maximize system performance for their specific needs. Give polished, professional presentations with features like the one-touch presentation launch button and one-touch zooming. Share presentation information and collaborate more easily with the LCD screen rotation button. When you need to conserve battery power, such as on long flights, use the Toshiba Power Saver utility to dim the screen or adjust the processor power. Or redistribute power to the battery by switching off the optical disk drive or wireless modules. Save time and increase productivity by creating your own one-touch shortcut keys for common functions such as opening a program or decreasing screen brightness.

\*EasyGuard features available on select models only.

# At a glance

Tecra A7	Widescreen mobility meets exceptional value.	Impressive reliability by design.	The Tecra A7 packs widescreen performance and Toshiba's EasyGuard™ technology into one budget-pleasing notebook.
Tecra A6	Smart computing goes mobile, for less.	Secure mobility by design.	The Tecra A6 combines Toshiba's exclusive EasyGuard™ technology with exceptional mobility in a budget-minded notebook.

Tecra M3	The mobility you need. The performance you demand.	Mobile performance by design.	The Tecra M3 offers the optimal balance of performance, security and mobility in a thin, lightweight chassis.
Tecra S3	Superior security, durability, performance.	Secure mobility by design.	The Tecra S3 notebook offers businesses advanced security and top-to-bottom enterprise scalability in a solid, well-built package.

## Selecting your Tecra.

With a robust set of standard and optional features, Tecra notebooks mean business. Finding the Tecra notebook that's right for your business is easy.

### **Tecra A7 — Widescreen Performance**

Toshiba's Tecra A7 blends advanced multimedia performance, security and durability into a budget-pleasing notebook. The 15.4" diagonal WXGA widescreen display presents 25 percent more viewable information than a 15" XGA screen. Select the TruBrite™ WXGA screen option to bring work to life or the WSXGA+ display option if you need to view more information such as spread sheet, high-resolution images, and web pages. And Toshiba's exclusive EasyGuard™ technology delivers state-of-the-art HDD protection<sup>2</sup> if the notebook is threatened by falling or excessive motion. It also includes a spill-resistant keyboard<sup>3</sup>, which gives you enough time to save your data and shut down the system, plus one-touch fingerprint security management of log-on, files and folders featuring an integrated biometric fingerprint reader. The Intel® Centrino® Duo Mobile Technology dramatically accelerates performance. And the CD-RW/DVD-ROM and DVD SuperMulti Double Layer drives provide media flexibility for presentations, backups and sharing data.

### **Tecra A6 — Affordable Mobility**

Powered by Intel® Centrino® Duo mobile technology, the Tecra A6 boosts the performance and productivity of everyday or multithreaded applications and multitasking scenarios. Its 14.1" widescreen display with High Brightness or TruBrite™ Technology, bolstered with Intel® and nVIDIA® graphics processors effortlessly handles critical multimedia and business applications. Advanced security, protection and reliability come with innovative shock-absorbing chassis design<sup>2</sup>; the integrated biometric fingerprint reader and spill-resistant keyboard<sup>3</sup>. Customize your system to optimize your notebook performance with EasyGuard™ Optimize, including battery-saving features and the Presentation Button for one-touch presentation launches. Toshiba's Advanced Port Replicator III Plus enables cable-free docking to your desk-bound peripherals for a simplified mobile experience. All these great features also come at a great value.

### **Tecra A4 — Widescreen Versatility**

Another affordable entry into the mobile computing experience, the Tecra A4 offers state-of-the-art mobility without sacrificing screen size. Enjoy potent features like discrete graphics, one-touch presentation launching as well as integrated wireless and docking capabilities. Enjoy the ability to view wide spreadsheets and place documents side by side on the generous 15.4" diagonal screen.

### **Tecra L2 — Add Mobility, And Value**

Designed to be both business-centric and budget-friendly, Tecra L2 notebooks offer the fundamental features and practical performance business users need to go mobile and stay productive — at a very attractive price. Equipped with a full-sized keyboard and generous 15" diagonal display, the Tecra L2 parallels the desktop experience, while also providing mobility. Powered by Intel® Centrino® Mobile Technology featuring Pentium® M Processor or the latest Intel® Celeron® M Processor, the Tecra L2 provides an exceptional mobile experience. Integrated 802.11b/g wireless<sup>5</sup> makes it simpler for users to get connected while on the go. Roomy hard drives offer up to 60GB of storage, and up to 512MB DDR2 memory — more than enough to handle business applications and business demands. When work requires collaboration, the built-in CD-RW/DVD-ROM optical drive enables sharing and backup of information, and can read most popular CD and DVD formats. Simply put, this notebook delivers fundamental business value.

### **Tecra M5 — Business on the Move**

The Tecra M5 delivers the optimal balance of on-demand performance, reliability and security designed to keep business users mobile and productive—today and tomorrow. The Intel® Centrino® Duo Mobile Technology effortlessly handles the most demanding business applications in a platform that epitomizes thin and light mobility and battery-life longevity.<sup>1</sup> The Tecra M5 is meticulously engineered for the daily rigors of mobile computing with a comprehensive set of Toshiba-exclusive EasyGuard™ technology enhancements for advanced security, protection, connectivity and optimization—including shock-absorbing HDD<sup>2</sup> protection, spill-resistant keyboard<sup>3</sup>, fingerprint reader for one-touch security management and advanced encryption. Going mobile also means staying productive with the high-performance nVIDIA® Quadro NVS 110M Graphics chipset or the Intel® Graphics Media Accelerator 950, Serial ATA HDDs, up to 4GB of DDR2 667MHz Dual Channel Memory, swappable CD-RW/DVD-ROM or DVD SuperMulti Double Layer drives and the Toshiba Advanced Port Replicator III Plus for one-touch peripheral connections.

## **Tecra M4 — Two Computers in One**

Access the full functionality of a leading-edge notebook and the innovative versatility of a Tablet PC. The ultimate mobile computing experience, the Tecra M4 convertible notebook lets you choose the way you work. Convert it to Tablet PC, and use the digital ink feature to review data, browse information, and hand-write notes directly onto a document during a meeting or presentation. Or convert it to a notebook and use the keyboard. Either way, the Tecra M4 comes with a host of built-for-business features including Intel® Centrino® Mobile Technology, free Microsoft® Office OneNote® 2003, 14.1" high-resolution SXGA+ wide-viewing angle display, DVD burner, and your choice of nVIDIA® GeForce Go 6200 TE 64M or 6600 TE 128M graphics and integrated wireless<sup>5</sup> LAN (802.11b/g or 802.11a/g) connectivity. For even more flexibility, the Tecra M4 comes with Slim SelectBay, allowing you to add a second battery, a second hard disk drive or easily change to a different optical drive.

## **Tecra M3 — Where Mobility Meets Performance**

Starting at five pounds<sup>4</sup>, the Tecra M3 packs an array of powerful features, including a 14.1" diagonal display. Optimized for mobility, this thin business notebook offers full potency including Intel® Centrino® Mobile Technology featuring Intel® Pentium® M Processors and the latest technology for enhanced security, performance and wireless connectivity. Equipped with the latest DDR2 memory architecture and stunning nVIDIA® GeForce Go 6200 TE 64M or 6600 TE 128M PCI Express Graphics, this travel-friendly notebook performs on demand. It also comes with Slim SelectBay,<sup>®</sup> allowing you to increase battery life<sup>1</sup> by swapping out the optical drive for an additional battery.

## **Tecra S3 — Secure. Reliable. Scalable.**

No matter how demanding your mobile business environment gets, the Tecra S3 offers the advanced security, durability and scalability to keep up and keep you moving forward. EasyGuard™ enhancements deliver the best combination of integrated security measures available to help prevent data theft and unauthorized system access. The Trusted Platform Module (TPM) embedded security chip guards against unauthorized user access, helping protect sensitive company information. The integrated biometric fingerprint reader lets users easily access their systems with the swipe of a finger while also allowing them to implement complex password schemes for added data protection.

Tecra S3 also comes with built-in protection for critical system components, with an industry-leading suite of hardware enhancements such as Toshiba Shock Absorbing Design<sup>2</sup>, Toshiba HDD protection and spill-resistant keyboard.<sup>3</sup> Advanced protection also comes with enhanced simplicity. Integrated 802.11b/g or a/b/g wireless<sup>5</sup> connectivity and Toshiba ConfigFree<sup>®</sup> make it easy to stay connected while on the go. Launch programs, presentations with one touch of a button, and switch wireless devices on and off with equal ease. The Tecra S3 is also supremely scalable, with high-performance mobile technologies including the latest Intel® Centrino® Mobile Technology, nVIDIA® GeForce™ 6600 GFX chipset graphics, and a vibrant 15" diagonal LCD display — all designed to meet your business demands today, and tomorrow.
