Software

Rapport™ Administrative Software for Compaq Thin Clients enhances your Thin Client solution by enabling you to centrally manage your Thin Clients.

Your purchase of a Compaq Thin Client entitles you to the Workgroup Edition of Rapport Administrative Software for Compaq Thin Clients.

IMPORTANT: The Program License for the Workgroup Edition is valid only for Compaq Thin Clients purchased on or after May 1, 2001. A Program License for Compaq Thin Clients purchased earlier is available by ordering a Compaq Upgrade. To order, visit www.compaq.com/products/thinclients/rapport.html

Additional Documentation

The reference and emulation guides as well as other important documentation are available from the Compaq website at: www.compaq.com/support/thinclients Visit www.compaq.com/products/thinclients for product and environmental specifications. Look for the Quick Specs applicable to your Thin Client.

NOTE: These guides are provided in PDF format. To view a PDF, you must have Adobe Acrobat Reader installed on your computer. You can download a free copy of the reader from the Adobe website at: www.adobe.com

Important Service Repair Information

In all cases, remove and safeguard all external options before returning the Thin Client to Compaq for repair.

In countries that support customer mail-in repair by returning the same unit to the customer, Compaq makes every effort to return the repaired Thin Client with the same internal memory and flash modules that were sent.

In countries that do not support customer mail-in repair by returning the same unit to the customer, all internal options should be removed and safeguarded in addition to the external options. The Thin Client should be restored to the original configuration before returning it to Compaq for repair.

WARNING: Misuse of your Thin Client or failure to establish a safe and comfortable workstation may result in discomfort or serious injury. Refer to your Safety & Comfort Guide for more information on choosing a workspace and creating a safe and comfortable work environment. To reduce the risk of electrical shock, connect your Thin Client only to a grounded (earthed) electrical outlet that is easily accessible at all times.
