

HP COMPAQ T5000 THIN CLIENT SERIES

Simple, dependable, manageable, and more secure solutions for your business environment.

Gain a competitive edge with the help of HP's affordable thin clients, featuring Microsoft® Windows® and Linux operating systems. Give your workers the processing power they need for a great server-based computing experience, whether running general office applications or a specific line of business software.

With proven business technology and a great price-performance ratio, HP thin clients are easy to buy, deploy, and manage.

Lower total cost of ownership

HP thin clients help you lower your total ownership costs with improved overall reliability and industry-standard components. See the benefits of lower costs through:

- Reduced risk of lost or damaged data: Secure your data on a centralized network server. Additional customizable security options are also available.
- Controlled environment: Eliminate tedious PC setup and management. Upgrade applications quickly by updating servers rather than clients.
- Highly reliable clients: No moving parts result in less maintenance and downtime than PCs.

Desktop-like features

Enjoy a true desktop experience with enough processor speed, and flash, system, and graphics memory to run multiple windows and process local applications faster. Select HP thin client models feature legacy support and options for security, wireless, and local storage.

Simplified IT management

HP thin clients run "out of the box" taking only a matter of minutes to set up. Easily establish your client network with automated HP setup and configuration tools. A full license of Altiris Deployment Solution is included with every thin client. Full integration with and a license for HP OpenView Client Configuration Manager simplify deployment and management along with built-in HP exclusive HP ThinState Tools.

HP advantage

HP is a global leader in thin client sales, successfully deploying thousands of solutions for business and providing a single source for servers, monitors, peripherals, and services.

HP's highly reliable thin clients are backed by HP Global Service and Support through our network of 50,000 IT professionals in over 100 countries.
