Getting Started with the HP Compaq t5000 Thin Client

IMPORTANT Safety Information

To reduce the risk of serious injury, read the *Safety & Comfort Guide*. It describes proper workstation setup, posture, and health and work habits for computer users, and provides important electrical and mechanical safety information. This guide is located on the Web at www.hp.com/ergo and on the *Thin Client Documentation CD* that is included with the product.

To reduce the risk of electric shock or damage to your equipment:

- Do not disable the power cord grounding plug. The grounding plug is an important safety feature.
- Plug the power cord in a grounded (earthed) outlet that is easily accessible at all times.
- Disconnect power from the thin client by unplugging the power cord from the electrical outlet.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. For more information, refer to the documentation provided with your product.

Management Software

HP has partnered with Altiris to manage HP Compaq t5000 thin clients. Altiris Deployment Solution is a leading-edge tool to help with quick deployment and for on-going management of the thin clients in your organization. Each HP Compaq t5000 thin client is recognized by Altiris Deployment Solution as a supported device. As a result, customers need not track license compliancy for each device. For additional information about the Altiris Deployment Solution tool, refer to the *Altiris Deployment Solution* insert that shipped with the thin client and the *Deployment Solution Product Guide* that is available at: www.altiris.com/support/documentation/.

Additional Documentation

Product documentation and other important information is available from the HP Web site at www.hp.com/support. The table below briefly describes some of the documentation available for the HP Compaq t5000 thin client.

These guides are provided in PDF format. To view a PDF, you must have Adobe Reader installed on your computer. Reader is provided on the *Documentation CD*, and is also available as a free download from the Adobe Web site at www.adobe.com.
