西安科耐特科技有限责任公司

XI'AN CONNECTOR TECHNOLOGY LTD

Xi'an Connector Technology Ltd ("CNT" for short ) founded in 1996, is one of the Hundred - top - enterprise of high science and technology located in Electronic Industry Garden of Xian Hi - Tech Industry Development Zone, and is one of the largest manufacturers and suppliers of RF coaxial connectors and cable assemblies in China. The products manufactured by CNT have been sold to many countries just in North America, Europe, Asia and Australia.

CNT has owned first class computer net design and production managment technology, advanced CNC machining technology and quality inspection technology, which has passed the AOQC, and has won the certificate of ISO - 9000 awarded by the authority organization - UKAS ( United Kingdom Accreditation Service ). Upon the examination and verification of Technology Quality Supervision Association of France, CNT products had been recommended as high quality science and technology products and recommended to the market of E.E.C. "Quality as the basis, reputation as the supreme" which is our company's service norms for all of customers.

CNT products can be up to the international advanced level, are more widely used in the equipment of CDMA, SCDMA, SDH, GSM, 3G etc Communication and network, and have enjoyed high prestige by our customers.

Quality policy - High reliability, high quality, rapid delivery

Quality target - Careful choosing raw material, be meticulous in manufacture, excellent products, good faith service.

Managment conception - People as the fundation strive for outstanding, constantly bring forth new ideas, take a global view.

Enterprise spirit - Unite, real, diligent, enterprise

Management principle - Fair, benifit, happy, develop

Work method - Plan, excute, inspect, improve

Registered trade mark - CNT

# MODERNIZED PRODUCTION MANAGEMENT

- Company's internal LAN.
- MRP gathering sales, stock, production plan and finance together, executing computer timely stock inquiry, tracing for production plan.
- The technical personnel and management staff with tens years production experience of connector

Electric characteristic test

Dimension inspection

Raw material/coating analysis

Microwave test

## STRICT PRODUCTS QUALITY CONTROL

HIGH RELIABILITY HIGH QUALITY RAPID DELIVERY

Commercial exchange

Consumer service

Rapid delivery
