

General Description

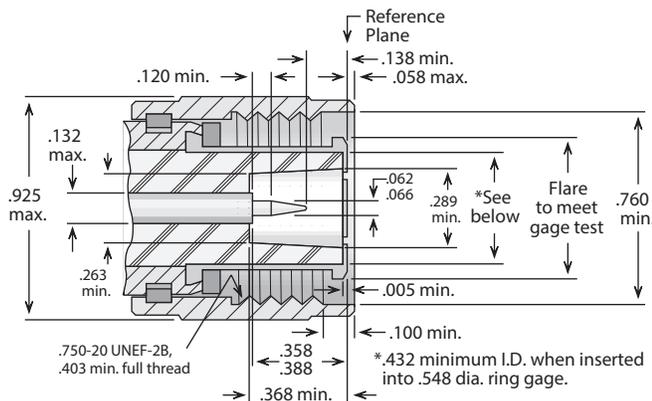

Delta HN series connectors are medium-size, 50 Ω impedance connectors with 3/4-20 threaded coupling and good power handling capability. They are best suited for use with cables in the range of .350" to .450" diameter, but are available for other cables from .200" to over 1" diameter. Our extensive line of HN receptacles includes configurations for virtually any packaging requirement, and we can supply any adapter or accessory you need to complete your system design. Adapters between HN and other series are shown starting on page 176. Our HN series product line is still growing, so please call if you don't see what you need.
