Cable Group Cross Reference

Below is a list of typical cables which fall into the cable group classifications relevant to the connectors oulined in this catalog.

Cable Group to Cable Type

Cable Group	Impedance	Cable Type
001	50	PSF1/4M (BBC), RG8A/U, RG213/U, URM67
001	75	RG11A/U, RG63B/U, RG114A/U, URM64

Competitive Cross Reference

These cross references are meant as guides for selecting functionally equivalent items and are subject to change.

These lists do not imply 100% conformance to the listed specifications, merely that the connector is form, fit and functionally an equivalent.

Qualification samples are available.
