

C-10-7M Cable
Male with coupling ring

C-10-8F Cable
Female with coupling thread

C-10-9F Panel
Female with coupling thread

C-10-4M Cable
Male with coupling ring

C-10-5F Cable
Female with coupling thread

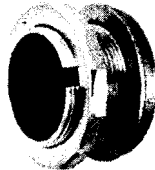

C-10-6F Panel
Female with coupling thread

3 CONTACT CONNECTORS

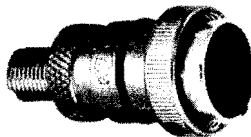

C-11-0M
3 Pin Cable Connector with
Coupling Ring - Male.

C-11-2F
3 Contact Panel
Connector with
Coupling Thread -
Female.

C-11-1F
3 Contact Cable Connector
with coupling thread - Female

C-11-01F
3 Contact Cable Connector
with coupling ring - Female.

C-11-21M
3 Pin Panel
Connector
with Coupling
Thread - Male

C-11-11M
3 Pin Cable Connector with
Coupling Thread - Male.

4 CONTACT CONNECTORS

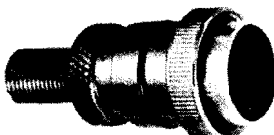

C-11-3M
4 Pin Cable Connector with
Coupling Ring - Male

C-11-5F
4 Contact Panel
Connector with
Coupling Thread -
Female.

C-11-4F
4 Contact Cable Connector
with Coupling Thread - Female

C-11-31F
4 Contact Cable Connector
with Coupling Ring - Female.

C-11-06C
Dust Cap & Chain

C-11-51M
4 Pin Panel Connector
with Coupling Thread - Male.

TERMINATING INSTRUCTIONS

To wire, remove element from connector, by releasing small countersunk screw. Remove about 1 inch of outer insulation from cable and insert in spring cable protector. Fold shield back over spring and solder. Strip insulation from centre conductors and insert cable and protector into cover from rear, sliding through as far as possible; solder conductors to contacts and draw back into shell. Replace small countersunk screw and tighten grub screw to make electrical connection to shield.
