Industrial Connectors

Plugs, Sockets, Trailing Sockets,
Appliance Inlets & Bespoke Cable Assemblies

- Compact and robust
- Simple installation
- NATO approved
- Corrosion resistant
- Operating temperature range of -20°C to +85°C
- IP66 rated
- Fire resistance to PH120 within the range
- Low smoke and toxicity
- High shock resistant
- Up to 500 V, 500 A
- Screw terminals - no special tool is required
- Long life sprung contacts
- Halogen and Cadmium free
- Part number traceability

LPA Niphan Range

The LPA Niphan range of industrial connectors are designed for use in hostile and rugged environments including industrial, rail, marine, defence, infrastructure and aerospace. The Niphan range continues to be the first choice for specifiers and users.

Guard Ring Plug

- IP66 rated
- Noryl insulator
- Good creep resistance
- High dielectric strength
- Halogen and Cadmium free
- Excellent insulation properties
- Saddle clamps manufactured from Zytel nylon resin
- Add /INS to part number for insulated variant
- Add /INT to part number for interior only
- Add /A36 to part number for plug fitted with plastic saddle clamp
- INS - Insulated terminals i.e. Earth pin is not connected to the body or casing of the plug/ socket
- ODD - Odd size pins to prevent reverse polarity connection (only for 2 pin plug & socket)

Product Range Overview

socket type	part number	conduit entry size	dimensions		fixing holes			
			D	H	Ø	A	B	No.
A	1274	20mm	45	30	5.5	17.5	24.0	2
A	16302	20mm	58	30	5.5	20.0	23.5	2
A or B	2766	25mm	65	36	6.5	22.0	34.5	2
A	1169	25mm	81	40	8.0	36.0	36.0	2
A	2333	1 1/2"	96	59	9.5	38.0	44.5	4

D - Diameter H - Height Fixing holes; Ø (Diameter), A and B centres from centre

All dimensions in mm

M/X is the entry size of the conduit (size of box holes)
Type A = 3 hole fixing socket
Type B = 2 hole fixing socket

Product Range Overview

part number	sockets to convert	adaptor	whitworth thread size
29618	13S or 13J	M16	5/8"
34857	23S or 23J	M20	13/16"
34857	65S or 65J	M20	13/16"

The adaptor converts the socket thread to a standard M16 or M20 so that it can be screwed into standard metric fittings.

Appliance Inlet

- IP66 rated
- High shock resistant
- Excellent insulation properties
- Good creep resistance

Bespoke Assemblies & Cable Harnesses

LPA offer bespoke assemblies and cable harnesses to meet customer requirements.

- Customer specified cable lengths
- Various cable types available
- Choice of connector including third party
- HV, LV, comms, data and ethernet circuitry options
- Various conduit solutions
- Inclusion of junction box if required
- In house testing and repair service
- Design assistance available
- Compliant with customer required standards
- LSZH options
- EN 45545 compliance where applicable
- Type testing available

X5	3.3	6
65	4.3	10

Environmental protection:

The LPA Niphan range of weatherproof connectors offer protection against the ingress of dust and liquids provided all fixing and earthing screws are correctly located and tightened.

The Niphan connectors have been tested to IP66 in accordance with EN 60529.

Quality Assurance:

The LPA Niphan range of electrical couplings are manufactured and comply with the highest industrial standards. They undergo rigorous testing and inspection during manufacture. All units are subjected to a high voltage flash test, at twice

the rated voltage (+1000V) between all poles and earth.

Quality Logo:

LPA Connection Systems is a BS EN IS) 9001:2015 approved company.

Product compliance:

LPA's Niphan connectors complies with the following standards and directives:

- BS EN 6194B:2009 Connectors safety requirements and tests
- BS EN 60309-1:1999 + A2:2012
- Low Voltage Directive (LVD2014/35/EU)
- RoHS Directive (2011/66/EU)

Sealing covers:

All flange mounted sockets with suffix A and B, and flange mounted plugs with suffix Q and R come supplied with protective covers to ensure their IP rating is maintained when unmated.

Polarity:

2 pole connectors have contacts of equal diameter and are equi-spaced. If no-reversal characteristics are required, add /ODD to the part number e.g. 12S = 12S/ODD).

Alternative products:

When saddle clamps are required to replace cable gripping nuts, add suffix /A36 e.g. 12S/A36. For all Poles insulated, add suffix /INS e.g. 1 3S/INS.
