

Bin Box - 300 x 165 x 105mm - ABS

Images\top\bin-300x165x105-abs.wmf

High strength storage bin box for warehousing components and parts.

Special Features Include:

- 1) Precision moulded from high strength ABS - a typical high abrasion resistant material used for telephone cases and handsets
- 2) Standard GREY is servicable for most jobs but custom colours are available subject to set-up costs and minimum run
- 3) Impact resistant material designed with substantial walls to provide stable handling for small or large parts of many kinds
- 4) New Zealand manufactured - on-going supplies are assured
- 5) Clip-on lid is being designed which will provide protection of contents and will also facilitate the vertical stacking of bins.
- 6) CKD Wooden cabinet, 1800x1040x320mm is available in MDF with clear polyurathene varnish finish. (Our design will be provided with orders for bins so customers can thereby make their own, on the understanding that they are not for resale).
