

REDFERN RADIO Glen Eden Auckland.

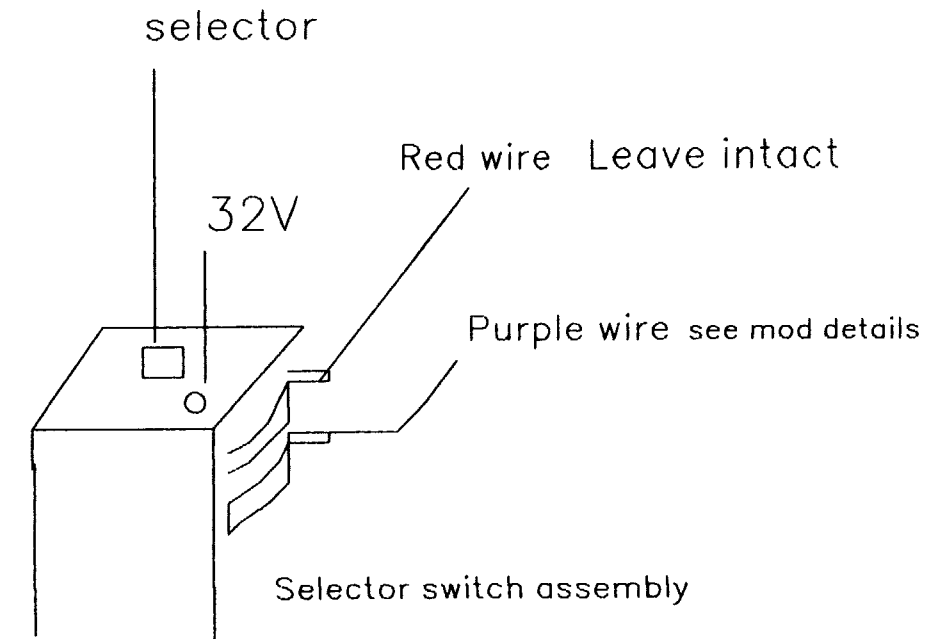

4/11/03

MODIFICATION OF ASR40 FOR VARIABLE VOLTAGE OPERATION.

Note the 2nd section of the range selector switch sets the O/V trip level
The 32 V position trips at 35V.

Modifications for cont 0 to 30V operation.

This assembly does not need removal to do mods.

Note in a power supply of this rating
the O/V trip circuit must be active
