

Specifications GP 160 PF

Type: Desktop-style
Copying system: Laser dry electrostatic transfer system
Platen: Fixed
Acceptable originals: Paper sheet, books and three dimensional objects up to 2kg
Maximum original size: A3
Copy sizes: *Cassette:* A5 to A3
Manual: A5R to A3
Resolution: Direct copy:
Scan: 400 x 600dpi,
Output: 1200 x 600dpi
From Memory:
Scan: 300 x 600dpi,
Output: 600 x 600dpi
Zoom: 25% - 400% (1% increments)
Speed: 16/A4, 9/A3 cpm
First copy time: 11 sec. approx.
Warm-up time: 15 sec. or less
Multiple copies: 1 - 99
Dimensions (W x D x H): 616 x 640 x 427 mm
Weight (kg): 48.8 kg (without printer board)
Power consumption: 850 W
Fixing system: SURF
Paper: *Cassette:* 64 to 90 g/m²
Hand feeding: 64 to 128 g/m²
Input Paper capacity: *Cassette:* 250 sheets
Multi-hand-feeding: 100 sheets
Automatic Document Feeder: 50 sheets

Printer function:

PDL: PCL® 5e, PCL® 6
Print resolution: 600 x 600dpi
Memory: 4MB up to 20MB
Network Interface: 10Base-T (Ethernet)
Protocols: TCP/IP, IPX/SPX
Print speed: 16/A4 ppm

Fax function:

Group: Super G3
Transmission time: Approx. 2 sec. (33.6 Kbps)
Modem speed: 33,600 bps
Image mode: Standard, Fine, Super fine, Ultra fine
Image memory capacity: 1MB (64 pages) up to 9MB (576 pages)
Paper size: up to A3

Options:

- Cassette feeding Module-D1: 1 x 250 sheets
- Cassette feeding Module-E1: 3 x 250 sheets
- 8MB Memory Kit for copy/fax
- 4 - 8 - 16MB Memory Kit for printer
- Pedestal 1
- Pedestal 2

Fast and flexible A3 network printing

Operating as a network printer, the GP 160 PF provides rapid 16 ppm output with the flexibility of full A3 size printing. Resolution is a high 600 dpi. Plus PCL® 5e and PCL® 6 emulations are supported, as well as Ethernet (10Base-T) connectivity for seamless networking. Canon's NetSpot software ensures easy operation and control via the network, direct from every user's PC screen.

High quality digital copying

The GP 160 PF is the first machine in its class to offer you an optimum print resolution equivalent to 1,200 x 600 dpi, with 256 grey gradations. The end result is impressive document quality, with consistently sharp text and images. A standard Automatic Document Feeder (ADF) provides full digital functions - including a 'Scan Once, Print Many' capability as well as electronic sorting.

High speed, heavy-duty faxing

Use the GP 160 PF as a Super G3 fax, with high speed communication up to 33.6 Kbps. This cuts transmission costs by as much as a third, compared to conventional G3 faxes. You can even fax A3 originals, such as book spreads and magazines, from the platen glass. Standard functions include fax directory and 64-page memory (upgradable to a high 576 pages).

Complete multifunctional convenience

The sheer versatility of the GP 160 PF enables multiple tasks to be performed at the same time - copying material while faxing or printing. A maximum paper supply of 1,100 sheets backs up this workgroup productivity. Add up to three optional cassettes to the standard 250-sheet cassette and 100-sheet manual feed tray for an efficient 5-way, multi-level paper supply unit with limitless feeding.

Less maintenance. More energy saving.

Canon's 'all-in-one' cartridge system contains the main printing consumables - toner and drum. So maintenance is as simple as a quick cartridge change, without the need for regular visits from a service technician. Plus Surface Rapid Fusing technology (SURF) cuts energy consumption, to add to your overall savings, while ensuring that the GP 160 PF warms up instantly, without any waiting.

Optimum quality and versatility in one affordable solution

Canon's new GP 160 PF offers you an advanced A3 network printer, high performance fax and top quality digital copier - in one flexible, multifunctional unit. Enabling you to increase productivity, cut running costs, save staff time and economize on office space. Benefit from a total print/fax/copy solution designed to support small enterprises and corporate departmental workgroups.
