

SPRINTQUIP

NZ Limited

SP40+ Coin Checker

The **SP40+** allows you to verify coins, within minting tolerances, quickly, quietly and with a minimum of fuss.

The **SP40+** is supported nationwide, by Sprintquip's team of fully trained technicians, with both on-site and return-to-base service options available.

SPRINTQUIP

NZ Limited

SP40+ Coin Checker

Applications

- Counting or verifying loose or packaged coin e.g. gaming winnings, teller deposits.
- Verifying bulk bags of coins.
- Counting or verifying coin in hoppers or containers e.g. gaming machine hoppers, vending machine cashboxes.

Features

- Reliable and accurate within minting tolerances
- Simple controls – easy to use.
- Large clear operator's display.
- Two levels of totalling – accumulated counts can be added into a grand total.
- Includes battery for portability and mobility.

- 30kg capacity - bulk coin can be easily processed along with smaller bags of coins (This equates to \$6,000 in \$2 coins).
- Large stable weighing platform for hoppers or cash boxes.
- Can be supplied with a remote customer display and RS232 port if required.
- Can be supplied with an interface to Optos CCTV recorders to allow text overlay onto video footage.

Dimensions 330mm (W) x 270mm (D) x 100mm (H)
