Note

This product catalog contains information and policies for UltraGard™ products only. For pricing information contact Customer Service.

ITI's products use innovative technology to provide security solutions for commercial and residential applications.

ITI's Learn Mode™ Technology

ITI's patented Learn Mode technology increases the ease and reliability of installations. Each sensor in a system has its own factory-programmed identity. ITI's control panel "learns" the identity of each sensor in the system, eliminating programming errors in the field and other problems associated with the wireless systems of other manufacturers.

Installation Time

ITI's Learn Mode systems are easy to install. Once the sensors are installed, they are added to the control panel's memory; no sensor programming is required. Large residential systems can be installed in a single day by a relatively inexperienced installer. Smaller installations, such as apartments, can be completed in less than four hours.

Applications

ITI systems are used around the world to protect people and property. ITI systems are installed in museums for collection security, military installations for equipment security, utility companies

for usage monitoring, nursing homes for resident monitoring, and universities for computer equipment security.

Home Automation

ITI systems go beyond burglar and fire protection. The home automation features available with some ITI systems allow the user to turn lights on and off at the touch of a button and control their heating and cooling system to save energy.

Two-Way Voice

ITI has responded to the growing concern over false alarm prevention and violent crime by developing its two-way voice technology. Two-way voice allows the central station operator to hear what is happening during an alarm and speak directly to the people on the premises.

Reporting and Interactive Capabilities

ITI systems can report in standard 4/2 format and can report to most receivers. Using the ITI format with an ITI receiver, system programming changes can be made over the phone and system reporting is more detailed.

Sensor Groups

ITI systems offer more than the standard intrusion, fire, emergency, and environmental sensor groups. Innovative sensor groups expand the usability and functionality of the system. For example, local sensor groups, which only sound an alarm on the premises, can be used to warn a user when the pool gate or freezer door is left open. The extended delay groups can be used on garage doors and driveway gates to give the user more time to enter the premises and disarm the system without causing an alarm.

New SuperBus™ Platform

ITI introduces new SuperBus peripherals which feature fast data communication between the control panel and hardwire bus devices. SuperBus peripherals are compatible with UltraGard™ and will be compatible with future generation ITI systems.

Product Compatibility Table

* Keychain Touchpads can also be added to compatible systems as sensors, making all wireless sensors and touchpad zones available for touchpads if necessary.

† Formerly DOC.

‡ These features will be available with UltraGard version 2.0.

UltraGard™ Security and Home Automation System is a full-featured hybrid system.

Control Panel

- UltraGard Control Panel, Version 2.0
UltraGard version 2.0 feature enhancements include a 32 event buffer with time and date stamp, more user codes, key switch arming, and SuperBus™ Hardwire Output Module support.
- Power, Mounting & Programming
- 16.5 VAC Standard Class II Transformer, Line Carrier Transformer, or 12 VDC marine battery
- 12 VDC, 6.5 Ah rechargeable, lead-acid backup battery power
- Wall mount
- Programmable from any SuperBus Alphanumeric Touchpad, ITI ToolBox™, and the CS-4000 Central Station Receiver

Wireless Sensors

- Compatible with all of ITI crystal Learn Mode™ sensors

Touchpads

- Compatible with all of ITI crystal Learn Mode wireless touchpads and SuperBus Alphanumeric Touchpads

Speakers & Sirens

- Compatible with most of ITI interior and exterior speakers
- Compatible with most of ITI interior, exterior, and wireless sirens

Peripherals

- Interrogator® 200 Audio Verification Module provides two-way voice capability
- SuperBus hardwire modules provide additional system options, such as energy saving thermostat control, and additional hardwire input and output zones
- X-10® Pro™ Modules provide light control and appliance control

Note:

UltraGard is compatible with Interrogator 200 and the following SuperBus devices: Alphanumeric Touchpads, the Energy Saver Module, the Hardwire Input Module, and the Hardwire Output Module.

The UltraGard Security and Home Automation System (UltraGard) is a full-featured, hybrid security system that uses advanced technology for burglar and fire detection. With the control panel's 12 volt auxiliary power output capability, 76 zone capacity, 6 on-board hardwire zones, and more than 20 types of wireless sensors to choose from, UltraGard can handle virtually any security application, big or small.

Range

- 2,500 ft typical open-air range with ITI's Learn Mode sensors

Zones

- 76 total
- 6 built-in hardwire
- 70 total hardwire with optional SuperBus Hardwire Input Modules

Access Codes

- 1 installer programming code
- 1 two-way voice code
- 24 user-programmable codes

Programming

- From SuperBus Alphanumeric Touchpads
- Remotely from a PC using ITI ToolBox or the CS-4000

Downloading

- Uploading and downloading remotely from a PC using ITI ToolBox

Reporting

- Uses 2 phone numbers and split reporting
- ITI or 4/2 format

Home Automation Features

- Premises temperature control
- Individual light control
- Appliance control

Other Features

- Voice messages
- Text messages with SuperBus Alphanumeric Touchpads
- On-/off-site telephone control
- Chime feature to monitor door and window activation
- Two-way voice
- Event buffer
- Key switch arming

Note:

Specifications subject to change. Some features are optional.

Repeater

60-615-10-319.5
Quik Bridge™ Learn Mode Repeater

Note:
Transformer and backup battery not included. Purchase backup battery, per specifications, from an electronics store.

- Receives and retransmits signals from Learn Mode sensors, touchpads, and other Repeaters to increase the distance a sensor can be mounted from the control panel
- Ideal for large installations where: 1) distant sensors perform poorly on the sensor test; 2) distant sensors cause supervisory problems; or 3) control panel antennas are shielded by metal
- Dual-antenna receiver for improved sensor data reception
- 24-hour backup battery option
- On board backup battery charging circuit
- Low backup battery report option
- AC power failure option
- Supervisory reports every 64 minutes
- Tamper switch
- 600' typical open-air range
- **Main power supplied by:**
15-16.5 VAC, 2 VA transformer (required if backup battery is used), or 9-16.5 VAC, 2 VA transformer, or 12 VDC power supply
- 50 mA max current draw
- 24-hour backup with 12 VDC, 1.3 Ah lead-acid battery
- 319.5 MHz radio receiver and sensor
- Crystal-controlled superheterodyne radio receiver
- 40°-120°F operating temperature
- Tamper switch
- AC power failure report
- Supervisory report every 64 minutes
- Belgian gray
- ABS Plastic
- Flat surface mounting
- 4.125" wide x 5.25" high (+8.75" with antennas) x 1" deep
- 5.1 oz

Note:
A weatherproof case is available from Rose Enclosures (301-696-9800). Order part number 09122008-00.

Part	Description/Features	Specifications	Accessories
------	----------------------	----------------	-------------

Output Module

60-585
SuperBus Hardwire Output Module

Note:
The SuperBus Hardwire Output Module is only compatible with UltraGard version 2.0.

- Provides up to four additional hardwire outputs for home automation and security applications
- "Form C" relays can be configured N/O or N/C
- Module cover tamper protection option
- Built-in LED indicates proper communication to control panel
- Up to 8 modules per panel
- 12 VDC @ 11 mA typical (idle) or 91 mA max (all relays energized) current draw
- 4 outputs configure N/O or N/C
- 32°-120°F operating temperature
- Belgian gray
- Tamper protection option
- Wall mounting
- 4.125" wide x 5.25" high x 1.0" deep

33-017 200 mA, 250 VAC Fuse 5/pk

Light Control Module

NEW!
13-403
X-10 Pro Lamp Module

Note:
The control panel must be powered with the Line Carrier Transformer if X-10 Modules are installed.

- Provides system and user control of lamps (up to 300W)
- Communicates through existing AC wiring; no additional wiring needed
- Turns lights on during a fire or auxiliary alarm
- Blinks lights during police alarm
- Blinks lights to indicate arming level
- Turns lights on for 5 minutes when system is armed/disarmed
- Individual light control
- For use with 300W max incandescent lights only
- 120 VAC @ 60 Hz power requirement
- White
- 2.25" wide x 2.75" high x 1.25" deep

60-346-500 Line Carrier Transformer (required for control panel)

Appliance Control Module

NEW!
13-402
X-10 Pro Appliance Module

Note:
The control panel must be powered with the Line Carrier Transformer if X-10 Modules are installed.

- Provides system and user control of appliances and lamps (up to 500W)
- Communicates through existing AC wiring; no additional wiring needed
- Individual appliance control
- Does not change state during a fire or auxiliary alarm
- Turns off plugged-in device during a police alarm
- 120 VAC @ 60 Hz power requirement
- For use with 500W max incandescent lights
- 1/3 HP max motors
- 15A coffee pots, etc.
- White
- 2.25" wide x 2.75" high x 1.25" deep

60-678 Line Carrier Transformer (required for control panel)

Ordering & Returning Products

Orders

Orders typically ship within one working day. Orders become effective only when accepted by ITI upon shipment or written confirmation.

To Order by Phone:

Call Customer Service at 800-777-4841
Monday-Friday, 7:00 am-7:00 pm CT

To Order by Fax:

800-777-4842
7 days a week, 24 hours a day

Returns

Prior to returning merchandise, you must call ITI Customer Service to obtain a Return Merchandise Authorization (RMA) number. For repairs or credits, call Customer Service. If a product is defective when received, and you want the product replaced, call ITI Technical Services for an *advanced replacement authorization*, then speak to Customer Service to get a return merchandise authorization (RMA) number. When returning merchandise, the RMA number must be clearly marked on the outside of the shipping carton.

For Credits or Repairs:

Call Customer Service at 800-777-4841
Monday-Friday, 7:00 am-7:00 pm CT

For an Advanced Replacement or Technical Information:

Call Technical Services at 800-777-2624
Monday-Friday, 7:00 am-8:00 pm CT

To Return Merchandise with an RMA Number:*

ITI
2266 North 2nd Street
North St. Paul, MN 55109-2900

* Write the RMA number on the outside of the shipping carton.

Terms & Conditions

Terms

Payment options include MasterCard®/Visa®, prepay, or COD until credit is established. Terms available by contacting ITI Credit. Full description of terms provided on request and when an account is established with ITI.

Sales Tax

Applicable sales tax is charged unless a Certificate of Exemption is on file with ITI. GST is added to orders shipped to Canada.

Shipping

Shipments leave daily from our warehouses via UPS or best way. Air shipment services are available upon request at the time of order. All shipments are F.O.B. ITI's warehouse.

Pick-Up

Arrangements can be made to pick up orders at the nearest regional warehouse. Please indicate your order as a *Will Call* at the time you place the order. Place order 24 hours prior to your planned pick-up time.

Claims

Title is passed to customer upon delivery of the order to a common carrier or authorized agent. All damage claims must be turned in to the shipping company by the customer receiving the goods. Original shipping cartons must be saved as claims are typically not processed without them. Claims must be made within 5 days of receipt of merchandise.

Warranty

ITI's current warranty policies are honored. See the ITI Limited Warranty for details.

Right to Purchase

You must be an authorized ITI dealer to purchase products from ITI. Possession of this document does not constitute the right to purchase.

Minimum Order

New dealers may have an initial purchase requirement.

International Sales

All international sales are made through ITI International, Inc., F.O.B. St. Paul, MN, USA. All prices quoted are payable in United States dollars.

Notices

Disclaimer

All prices, terms, and specifications are subject to change without notice. Prices in effect at time of shipment will apply.
