Australia's Premier Security Power Specialist

ENGINEERED FOR CCTV

“Comparing apples with apples” has perhaps never been more apt than when selecting the correct power supply for modern CCTV systems.

Power supplies are quite often the last component to be considered during system configuration, despite the essential role that they play in overall performance and reliability.

Whilst one power supply may look much like another - unfortunately, this is very often not the case. Tactical employ a team of qualified engineers, technicians and skilled trades people to ensure that from concept & design, through manufacturing and quality control, each model not only meets or exceeds Australia's stringent Electrical Safety & EMC requirements, but offers maximum performance and reliability in the harshest conditions.

Tactical offers an extensive selection of 24Vac, 12Vdc & 13.5Vdc CCTV models, in many different installation configurations. Most models are available as “standalone” single output supplies or factory fitted in heavy duty powder coated steel enclosures - with or without individually fused multi-output Power Distribution Modules (PDM). The use of PDMs for CCTV applications not only simplifies termination (separate terminals for each camera), but facilitates fault finding and service, with individual circuit status LEDs and easy to replace M205 fuses or self-resealing solid state polyswitches (model dependant).

If 19” rack mount installation is required, Tactical manufactures a range of attractive, rack-space conservative 2RU & 3RU models in 24Vac, 12Vdc & 13.5Vdc (13.5Vdc models feature onboard high output battery chargers).

At Tactical we live and breath electronic security power. With a hard won reputation for robust design and rugged reliability, you can depend on Tactical Technologies power products to perform where many others fail.

24V AC Models

- Single Output, Multiple Output, Wall Mount and 19" Rack Mount

Model	Features	Model	Features
TPS24-2A	24Vac 2A Supply - Single Output	TPS24-10BD-10R	24Vac 10A Supply - 10 x 1A Outputs
TPS24-3AC	24Vac 3A Supply - Single Output	TPS24-10BD-20	24Vac 10A Supply - 20 x 500mA Outputs
TPS24-3AC-BD2	24Vac 3A Supply - 2 x 1.5A Outputs	TPS24-10BD-20R	24Vac 10A Supply - 20 x 500mA Outputs
TPS24-3AC-BD4	24Vac 3A Supply - 4 x 750mA Outputs	TPS24-20AC-BD-4	24Vac 20A Supply - 4 x 5A Outputs
TPS24-3AC-BD10	24Vac 3A Supply - 10 x 300mA Outputs	TPS24-20AC-BD-10	24Vac 20A Supply - 10 x 2A Outputs
TPS24-4AC	24Vac 4A Supply - Single Output	TPS24-20AC-BD-20	24Vac 20A Supply - 20 x 1A Outputs
TPS24-4AC-BD2	24Vac 4A Supply - 2 x 2A Outputs	TPS24-20AC-BD-20R	24Vac 20A Supply - 20 x 1A Outputs
TPS24-4AC-BD4	24Vac 4A Supply - 4 x 1A Outputs	RPS24-6AC-D2-2RU	24Vac 6A Rackmount - 2 x 3A Outputs
TPS24-4AC-BD10	24Vac 4A Supply - 10 x 400mA Outputs	RPS24-6AC-D4-2RU	24Vac 6A Rackmount - 4 x 1.5A Outputs
TPS24-6AC	24Vac 6A Supply - Single Output	RPS24-6AC-D10-2RU	24Vac 6A Rackmount - 10 x 600mA Outputs
TPS24-6AC-BD2	24Vac 6A Supply - 2 x 3A Outputs	RPS24-6AC-D20-2RU	24Vac 6A Rackmount - 20 x 300mA Outputs
TPS24-6AC-BD4	24Vac 6A Supply - 4 x 1.5A Outputs	RPS24-10-D10-2RU	24Vac 10A Rackmount - 10 x 1A Outputs
TPS24-6AC-BD10	24Vac 6A Supply - 10 x 600mA Outputs	RPS24-10-D20-2RU	24Vac 10A Rackmount - 20 x 500mA Outputs
TPS24-10BD-2	24Vac 10A Supply - 2 x 5A Outputs	RPS24-10-D40-2RU	24Vac 10A Rackmount - 40 x 250mA Outputs
TPS24-10BD-4	24Vac 10A Supply - 4 x 2.5A Outputs	RPS24-20-D20-2RU	24Vac 20A Rackmount - 20 x 1A Outputs
TPS24-10BD-10	24Vac 10A Supply - 10 x 1A Outputs	RPS24-20-D40-2RU	24Vac 20A Rackmount - 40 x 500mA Outputs

12V DC Models

- Single Output, Multiple Output, Wall Mount and 19" Rack Mount

Model	Features	Model	Features
TPS12-2.5Si	12Vdc 2.5A with charger - Single Output	TPS12-10DC	12Vdc 10A with charger - Single Output
TPS12-2.5SiE	12Vdc 2.5A no charger - Single Output	TPS12-10DC-B	12Vdc 10A with charger - in Cabinet
TPS12-2.5SiB	12Vdc 2.5A with charger - in Cabinet	TPS12-10DC-BD10	12Vdc 10A with chgr - in Medium Cab / 10 x 1A Outputs
TPS12-2.5SiEB	12Vdc 2.5A no charger - in Cabinet	TPS12-10DC-BD20	12Vdc 10A with chgr - in Med Cab / 20 x 500mA Outputs
TPS12-2.5SiBD	12Vdc 2.5A with chgr - in Cab / 10 x 250mA Outputs	TPS12-10DC-ME	12Vdc 10A with charger - in Large Cabinet
TPS12-2.5SiEBD	12Vdc 2.5A no chgr - in Cab / 10 x 250mA Outputs	TPS12-10DC-MED10	12Vdc 10A with chgr - in Large Cab / 10 x 1A Outputs
TPS12-5Si	12Vdc 5A with charger - Single Output	TPS12-10DC-MED20	12Vdc 10A with chgr - in Lge Cab / 20 x 500mA Outputs
TPS12-5SiE	12Vdc 5A no charger - Single Output	TPS12-10DC-MED-40	12Vdc 10A with chgr - in Lge Cab / 40 x 250mA Outputs
TPS12-5SiB	12Vdc 5A with charger - in Cabinet	RPS12-10DC-D10	12Vdc 10A Rack no charger - 10 x 1A Outputs
TPS12-5SiEB	12Vdc 5A no charger - in Cabinet	RPS12-10DC-D20	12Vdc 10A Rack no charger - 20 x 500mA Outputs
TPS12-5SiBD	12Vdc 5A with chgr. - in Cab / 10 x 500mA Outputs	RPS12-10DC-D40	12Vdc 10A Rack no charger - 40 x 250mA Outputs
TPS12-5SiEBD	12Vdc 5A no chgr - in Cab / 10 x 500mA Outputs	RPS12-20DC-D20	12Vdc 20A Rack no charger - 20 x 1A Outputs
TPS12-5SiBD-20	12Vdc 5A with chgr. - in Cab / 20 x 250mA Outputs	RPS12-20DC-D40	12Vdc 20A Rack no charger - 40 x 500mA Outputs
TPS12-5SiEBD-20	12Vdc 5A no chgr. - in Cab / 20 x 250mA Outputs		

13.5V DC Models

- Single Output, Multiple Output, Wall Mount and 19" Rack Mount

Model	Features	Model	Features
TPS13-2.5Si	13.5Vdc 2.5A with charger - Single Output	TPS13-10DC-BD-20	13.5Vdc 10A with chgr - in Med Cab / 20 x 500mA Out
TPS13-2.5SiB	13.5Vdc 2.5A with charger - in Cabinet	TPS13-10DC-ME	13.5Vdc 10A with charger - in Large Cabinet
TPS13-2.5SiBD	13.5Vdc 2.5A with chgr - in Cab / 10 x 250mA Output	TPS13-10DC-MED10	13.5Vdc 10A with chgr - in Large Cab / 10 x 1A Out
TPS13-5Si	13.5Vdc 5A with charger - Single Output	TPS13-10DC-MED20	13.5Vdc 10A with chgr - in Large Cab / 20 x 500mA Out
TPS13-5SiB	13.5Vdc 5A with charger - in Cabinet	TPS13-10DC-MED40	13.5Vdc 10A with chgr - in Large Cab / 40 x 250mA Out
TPS13-5SiBD	13.5Vdc 5A with chgr - in Cab / 10 x 500mA Output	RPS13-10DC-D10	13.5Vdc 10A Rack (with charger) - 10 x 1A Outputs
TPS13-5SiBD-20	13.5Vdc 5A with chgr - in Cab / 20 x 250mA Output	RPS13-10DC-D20	13.5Vdc 10A Rack (with charger) - 20 x 500mA Outputs
TPS13-10DC	13.5Vdc 10A with charger - Single Output	RPS13-10DC-D40	13.5Vdc 10A Rack (with charger) - 40 x 250mA Outputs
TPS13-10DC-B	13.5Vdc 10A with charger - in Medium Cabinet	RPS13-20DC-D20	13.5Vdc 20A Rack (with charger) - 20 x 1A Outputs
TPS13-10DC-DB10	13.5Vdc 10A with chgr - in Med Cab / 10 x 1A Output	RPS13-20DC-D40	13.5Vdc 20A Rack (with charger) - 40 x 500mA Outputs

Don't let poor quality power products become the weak link in *your* CCTV System

In the end, no matter how simple or how complex your Security, Access or CCTV System, it is only as strong as its weakest link.

Why chance critical system operation on a less than ideal power solution ?

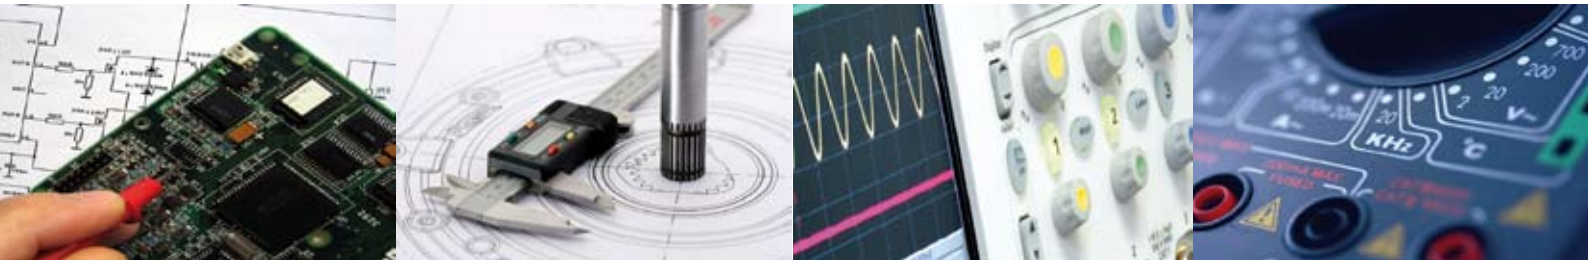

Consistent system operation *demands* reliable power.
