

Mechanical Screw Starters for ferrous or non-ferrous screws

No more fumbling with hard-to-position screws! A simple twist of the Ullman alloy steel bit and screw is firmly held, ready for trouble-free starting. Tool releases and resets automatically. Slender aluminum or electric-shock resistant nylon handles, for easy access into close areas.

Should a screw, washer or nut be dropped into a hard-to-reach area, it can easily be retrieved by turning the tool around and using the strong full 1" permanent magnet on the opposite end of the aluminum handle screw starter.

STANDARD SLOTTED SCREW STARTERS
