Flexi-Fit Control Knobs

The Flexi-Fit series which features a flexible insert that allows the knob to be used on either a D flat or 6mm spline shaft is the first of its kind to adapt to any orientation. This unique feature allows for versatility and becomes extremely cost effective. Should the application change because of shaft shape or orientation there's no need to buy new knobs! These knobs are one piece. The knobs are available in either black or gray with white lines and colored caps.

	Surface Material	Color	Fitting	Orientation		
F311 Flexi-Fit 11mm, flexible insert included. With white line. (Knob also available with D6-Fit)	S	body 0, 8 line 9 cap 0 - 9, S	F	-		
F313 Flexi-Fit 13mm, flexible insert included. With white line	S	body 0, 8 line 9 cap 0 - 9, S	F	-		
F317 Flexi-Fit 17mm, flexible insert included. With white line	S	body 0, 8 line 9 cap 0 - 9, S	F	-		

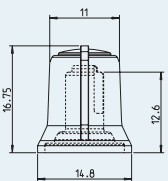

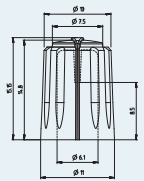

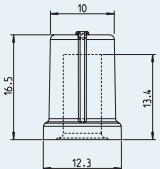

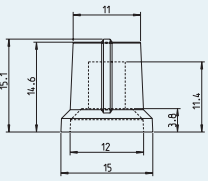

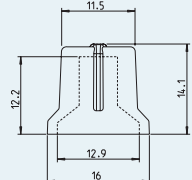

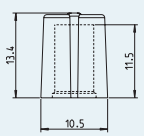

Flexi-Fit Insert

Knobs accept one insert that will fit on either a 'D' shaft or a spline shaft. The insert slides into the knob so that the knob can be pushed onto either type shaft.

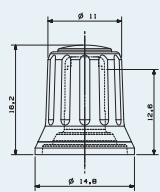

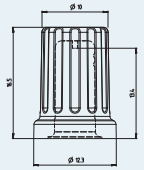

Push-Fit Control Knobs - 2 and 3 colors

Looking for something a little different for your application? Need a knob where you don't have to order caps separately? Then look at the Re'an Push-Fit control knobs. Available in two or three colors with marker lines to fit either D flat or 6mm spline shafts. The push-fit series will address a wide variety of applications and will enhance the aesthetics of any piece of equipment.

	Surface Material	Color	Fitting	Orientation		
P300 Stylish three color control knob in hard or soft-touch plastics with a raised solid marker line and integral nut cover	H, S	body 0, 8 line 0, 2, 8, 9 cap 0 - 9, S	D6, S6	N, S, W, E		
P311 Push-fit version (D6-fit) of F311. Premium 3 color knob	S	body 0, 8 line 9 cap 0 - 9	D6	N, S, W, E		
P400 A slim two color soft-touch knob for use in densely populated control surfaces	S	body 0, 8 line 0 - 9 cap -	D6, S6	N, S, W, E		
P570 Low-profile, hard-touch two color control knob with integral nut cover	H	body 0, 8 line 0 - 9 cap -	S6	-		
P670 Low-profile, soft-touch two color control knob with integral nut cover	S	body 0, 8 line 0 - 9 cap -	D6, S6,	N, S, W, E		
P675 Miniature soft-touch two color knob	S	body 0 line 0 - 9 cap -	D6	N, S, W, E		

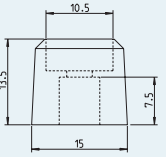

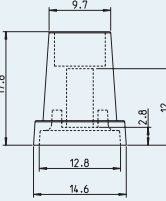

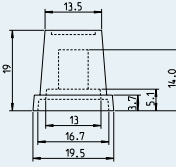

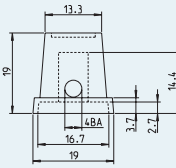

Push-Fit Control Knobs - Encoders

You're looking for encoders? With our new Re'an encoders we designed stylish one- and two-color parts for all kinds of applications. We are using new materials to guarantee long-lasting endurance combined with an outstanding feeling.

	Surface Material	Color	Fitting	Orientation		
P301 A two color encoder in soft- and hard-touch, body and cap in various color combinations	H, S	body 8, 0 line - cap 0 - 9, S	D6	-		
P401 Slim one color encoder in soft- and hard-touch, in nine different colors available	H, S	body 8, 0 line - cap -	D6	-		

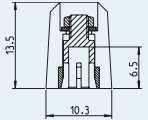

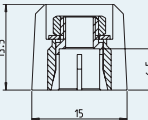

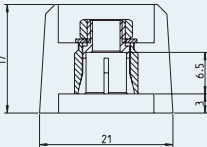

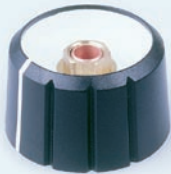

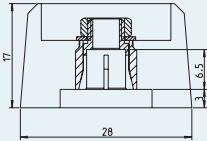

Push-Fit Control Knobs - Two Piece

Need a black knob that can be color coded for your specific application? Look no further than the Push-Fit with Cap series of Re'an knobs. The caps are offered in any of the nine standard resistor colors – with or without a marker line.

	Surface Material	Color	Fitting	Orientation		
P150 Push-on version of the 15mm collet knob series.	H	body 0 line 9 cap -	D25	N, S, W		
P859 15mm control knob	H	body 0 line - cap -	S6	-		
P861 19mm control knob	H	body 0 line - cap -	D25, S6	-		
P862 19mm control knob with screw fixing	H	body 0 line - cap -	R25 Screw fit	-		

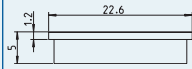

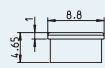

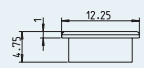

Collet Knobs

The Re'an Collet knob series features a screw-fix fitting that allows for freedom of choice when selecting marker line orientation. The four choices of fitting sizes are found on a two color molded body that will not come off its shaft during use. The color coded caps allow for ease of operation and identification.

	Surface Material	Color	Fitting	Orientation		
C100 High-specification, 10mm, two color collet knob with molded-in marker line	H	body 0, 8 line 0, 8, 9 cap -	R12, R4	-		
C150 High-specification, 15mm, two color collet knob with molded-in marker line	H	body 0, 8 line 0, 8, 9 cap -	R12, R25, R4, R6	-		
C210 High-specification, 21mm, two color collet knob with molded-in marker line	H	body 0, 8 line 0, 8, 9 cap -	R12, R25, R4, R6	-		
C280 High-specification, 28mm, two color collet knob with molded-in marker line	H	body 0, 8 line 0, 8, 9 cap -	R12, R25, R4, R6	-		

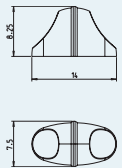

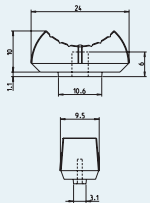

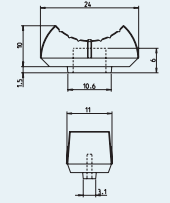

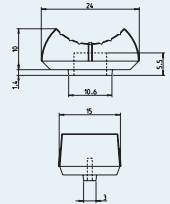

Caps

All caps are available in any of the ten resistor colors with or without a white or black marker line. These caps work in any application to compliment or color code any two-piece push-on or collet knob.

	Surface Material	Color	Fitting	Orientation		
T100 Flat cap for C100 collet knob	H	body 0 - 9 line 0, 9, X cap -	-	-		
T150 Flat cap for C150 collet knob and P150 15mm push-on knob	H	body 0 - 9 line 0, 9, X cap -	-	-		
T210 Flat cap for C210 collet knob	H	body 0 - 9 line 0, 9, X cap -	-	-		
T280 Flat cap for C280 collet knob	H	body 0 - 9 line 0, 9, X cap -	-	-		
T859 Flat cap for P859 15mm push-on knob	H	body 0 - 9 line 0, 9, X cap -	-	-		
T861 Flat cap for P861 and P862	H	body 0 - 9 line 0, 9, X cap -	-	-		

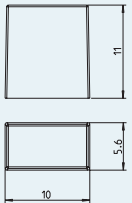

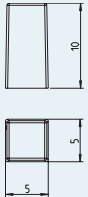

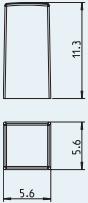

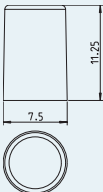

Sliders

We know that the main objective of a slider knob is ergonomics and aesthetics. With this in mind we offer five different types of sliders from miniature to 15mm that work great and feel good too! All the sliders have molded in marker lines that help eliminate fade and are designed for large and small applications.

	Surface Material	Color	Fitting	Orientation		
S771 Miniature profiled two color slider for use in densely populated control surfaces	H	body 0 - 9 line 0 - 9 cap -	M	-		
S772 9mm wide, two color slider for use in densely populated control surfaces Chrome matt/shiny options available on request	H	body 0 - 9 line 0 - 9 cap -	M	-		
S773 11mm wide, two color slider Chrome matt/shiny options available on request	H	body 0 - 9 line 0 - 9 cap -	M, K, P	-		
S778 15mm wide, two color slider Chrome matt/shiny options available on request	H	body 0 - 9 line 0 - 9 cap -	M, K, P	-		

Switch Buttons

The Re'an line of buttons features textured surface finishes and will compliment any other Re'an knob or slider. The buttons are available in rectangular, square or circular styles in any of the ten resistor colors. Custom printing is available.

	Surface Material	Color	Fitting	Orientation		
B120 Rectangular switch button	H	body 0 - 9 line - cap -	28, 33	-		
B220 Square, tapered switch button for densely populated control surfaces	H	body 0 - 9 line - cap -	28, 33	-		
B222 Square, tall tapered switch button	H	body 0 - 9 line - cap -	28, 33	-		
B225 Circular switch button	H	body 0 - 9 line - cap -	28, 33	-		

Printing Facilities

We have our own in-house facilities for adding the legends of your choice onto switch buttons.

The advanced process we use provides substantial advances both in longevity and definition over traditional blocking and screen-printing. Our technique involves the transfer of epoxy resin based ink onto the surface of the buttons. There is no restriction regarding the type of characters used – we are happy to work from camera-ready artwork or alternatively we can prepare artwork for you in our own design studios.

Printing options are available. Subject to minimum quantity. Contact factory or sales representative for details.
