

Sides and Top Panel recessed, held in place with quickly removable panel clips. These may only be removed from within the unlocked cabinet.

Doors are locking. Tinted glass is used on glazed doors for quality, burnish — free durability.

Integral corner braces on cabinets 900mm and larger, give exceptional rigidity.

Doors may be lifted off hinges for full equipment access.

Shelves may be mounted anywhere vertically in cabinet, requires optional Shelf Rail Kit. Shelves are fully ventilated and do not encroach on 19" mounting facility. Come complete with mounting hardware.

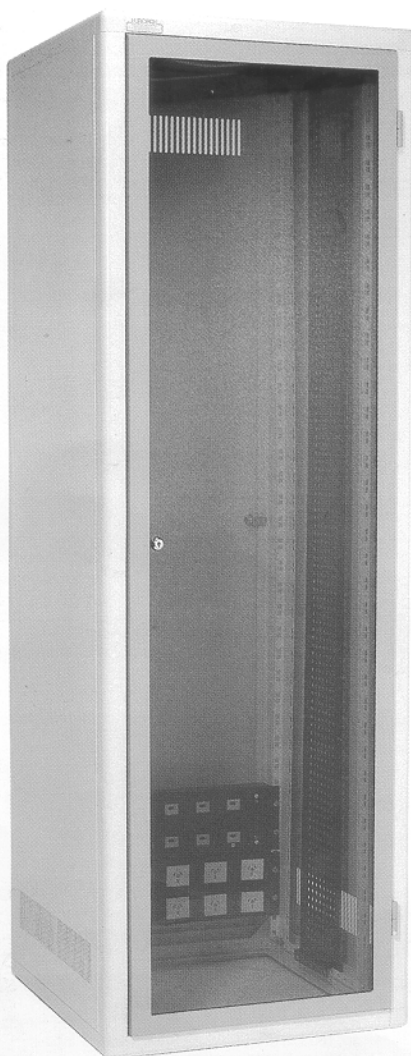

19" mounting rails are adjustable anywhere forward or aft in the cabinet to give full flexibility for Patch Panel or equipment accommodation.

FEATURES

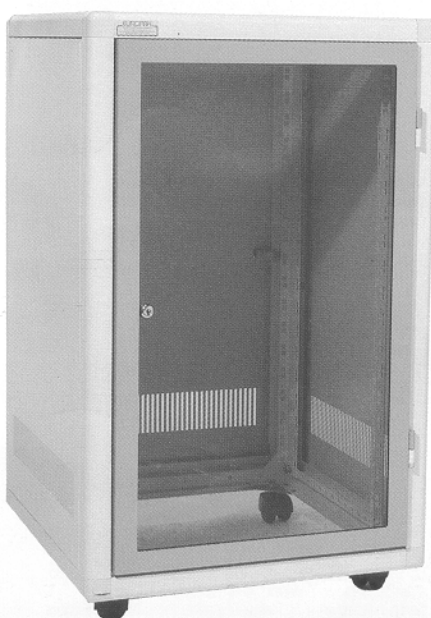

EUROPAK CABINETS — 19" enclosures manufactured to IEC 494 19" standard.

- Durable construction
- Manufactured from Aluminium extrusion and space age plastics.
- Distinctive stylish appearance gives your installation a quality upmarket touch.

ORDERING INFORMATION

EUROPAK ENCLOSURES are shipped in a robust export grade container.

ENCLOSURES may be ordered without doors, steel doors, or glass doors mounted at front or rear.

Sides and top panels are standard, may be deleted if not required (i.e. suite application). Items marked ☐

above include a bottom panel. Knocked-down cabinets require simple tools and a few minutes to assemble.
