**KEYBOARD SLIDING SHELF**

The keyboard sliding shelf allows computer equipment to be operated within the rackmount environment. Designed primarily for use in open rack systems, the keyboard sliding shelf can also be used in a cabinet if desired. The mouse pad caters for right or left handed operators. Supplied complete with fixing screws and cable management ties. Powder coated silver grey.

**HINGED WALL BRACKETS**

Available in a range of sizes, hinged wall brackets enable panels not requiring enclosure to be fastened to a wall. The hinge allows panels and equipment to swing away from the wall for access.

To prevent dust ingress, bracket covers are available to fit top and bottom of brackets. Brackets and bracket covers powder coated in either silver grey or black.
